

Instruction

Create a CAP alert integration with your TSN VCS platform

1. Use the following data to integrate a CAP provider with your TSN VCS platform:

General information

To integrate cap provider into TSN, you need to use these data:

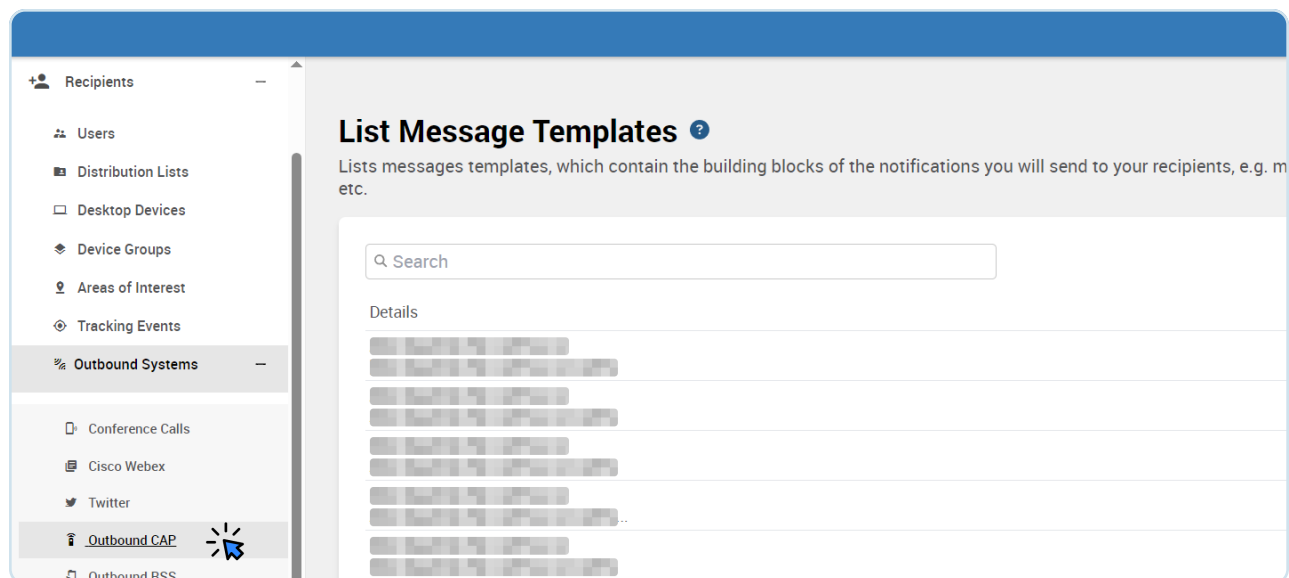

URL: `http://portal.thescholasticnetwork.com/api/messages/cap/start/` 

Username: `xx` 

Password: `6@` 

2. In the **InformaCast** portal, add TSNVCS as a **Recipient**.

Go to Recipients > Outbound Systems > Outbound CAP

3. Create a **new outbound CAP** endpoint.
- a. First, create a Connection Configuration with data from the TSNVCS portal (step 1)

ns, and can receive a notification's text contents.

Rows per page: 10 1-6 of 6 << < > >>

Add Connection Configuration
