

Dear Trading Partners,

Please see below that we are 100% Phthalates free and RoHS-compliant.

<http://www.vedotoys.com/quality-materials/>

100% Phthalates Free

All VēDO products are 100% phthalates free. Phthalates are chemical plasticizers that are added to plastics to increase their flexibility. They are suspected of having carcinogenic and mutagenic effects on the skin and mucous membranes.

RoHS-compliant

All VēDO products are RoHS-compliant. The Restriction of Hazardous Substances (RoHS) is a European Union directive that restricts the use of hazardous materials (lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls and polybrominated diphenyl ether) in the manufacture of various types of electronic and electrical equipment.

Savvy understands that Prop 65 has completely different compliant guidelines. VeDO has passed its first round of Prop 65 testing. We're utilizing the services of UL LLC which is an American global safety consulting and certification company headquartered in Northbrook, Illinois.

However, please refer to <https://oehha.ca.gov/proposition-65/businesses-and-proposition-65> which details those exempt from Prop 65 warning labels:

Businesses with less than 10 employees (Savvy Co. has only 2 employees) and government agencies are exempt from Proposition 65's warning requirements and prohibition on discharges into drinking water sources. Businesses are also exempt from the warning requirement and discharge prohibition if the exposures they cause are so low as to create no significant risk of cancer or are significantly below levels observed to cause birth defects or other reproductive harm.

Savvy Co., therefore VeDO is exempt from Prop 65.

If you have any questions or concerns, please feel free to reach out.

Kind Regards,

Daniel Bilodeaux
President
Savvy Company
