

NEPT Orientation Call Chat Log – 01-25-2016

Michele@All: I'm here. I'm on join.me and I'm listening on the phone.

Michele@All: I can see it.

Michele@All: Does the ACR schedule page give you the phone #s so if you are out of town you can print out or do you have to search for email for that day for connection info?

Eleanore@All: What is INE - Practitioner calls

Kate@All: will the CMDS retreat be recorded?

Eleanore@All: NEPT students are welcome?

Michele@All: Yes, they are.

Michele@All: great explanation on schedule/calendar of events

Michele@All: Steph's content is always very good and information. You will learn a lot!!

Michele@All: When do we need to use that password?

Michele@All: But we don't need it if we call in, right?

Michele@All: okay thanks

Eleanore@All: Can we change that to NEPT Case Uploader?

Michele@All: what heading were you under just a minute ago?

Alma@All: the couple of times I uploaded labs, Dr. Ritamarie had trouble accessing them even though I received an automatic submission confirmation email. Has this problem been fixed?

Michele@All: I'm talkinga bout the INE page you were on before

Michele@All: before you went into the case study form

Sarah@All: Have to go! But will listen to the recording, good night everyone, thank you Dr. Ritamarie & Lynn!

Michele@All: So when you do a case study on a client, you would pull up the case study form on the computer and fill in their answers as you ask them these questions?

Michele@All: A printed form they fill out and then would you just scan and submit the form they fill in

Michele@All: So I want to submit a case for the CMDS virtual retreat. WHICH forms should I have them fill out?

Michele@All: For go through and fill out

Michele@All: I brought a guest to SHINE and I was going to have her fill out questionnaires in the SHINE binder and upload them. So I just need to be clear what forms you want filled out in order to address it in the CMDS virtual retreat

Michele@All: I was going to ask about the binders. Thanks for referencing that.

Michele@All: Great idea on how to use the check off lists

Kate@All: Thanks Lynne!

Michele@All: does it show if you've taken and passed it?

Michele@All: Thank you so much for allowing us to use your forms!!

Alma@All: how did you get to this page?

Michele@All: Do most of the labs require you to go to their lab sites? or can clients get the labs done at their local medical clinic?

Alma@All: how do we access the lab software?

Michele@All: Is there a walk through on how to use the health tracker? Like a virtual webinar on it?

mary@All: History is everything!!! I have found many answers to problems based on using this worksheet

Michele@All: How do you get the NEPT Student List?

Michele@All: I found it

Michele@All: Okay, I'll look there in the Blood CHEMistry module. All these things are great, just so much info and wanting to learn more on how to use Health Tracker specifically.

Michele@All: THE reason I asked about Lab thing was I'm not close to Lab Site for Direct Labs.

Kate@All: so if we're paid in full, we should have access to all of the membership dashboards? I seem to be missing a few

Michele@All: This is all put together so thoroughly! You don't really even realize all the resources available in this program. This has been a great walk through call! Thank you so much for show us all of this.

Kate@All: ok, gotcha. So I could access to the IRSPT program ahead of time?

Kate@All: working through it with my parents :)

Kate@All: thanks!

You@All: coachlynn@drritamarie.com

Kate@All: Thank you both so much for the detailed walk-through! So excited to keep learning from you

You@All: We're excited to have you here, too.

Kate@All: I'll have to check it out! I'm all about tasty nourishing food :)

You@All: Me, too! :-)
