WHAT IS HEALTH?

4 Levels of Healing or Existence

Spiritual (Being) – The essence of who we are. Transcends mental, emotional, and physical existence to understand, pursue, and live our purpose.

Mental (Thinking) – Attitudes, beliefs, and values.

Emotional (Feeling) – Full range of human experience including meaningful contact and connection with ourselves and others.

Physical (Doing) – Surviving and thriving in the material world by taking care of our bodies and enjoying them.

All four of these levels are equally important. We can't afford to neglect any of them if we want to feel whole, healthy, and satisfied.

What your score could mean:

10 or less

Chances are you have established a clear vision of what you want your health, wellness, and life to look and feel like and taking appropriate actions to manifest it. You may need support to identify any limiting attitudes or beliefs that could prevent you from making lifestyle changes that stick.

11 to 20

Chances are your vision is not clear about what you want your health, wellness, and life to look and feel like and you are unsure of what action steps are appropriate for you. It's highly likely that you have some limiting attitudes and beliefs that could prevent your from making lifestyle changes that stick.

21 to 30

Chances are you are struggling with creating a vision of what you want your health, wellness, and life to look and feel like or you are focused on your past. You may be unable to consistently take appropriate action steps as a result. It's very likely you have some limiting beliefs that may be self-sabotaging and standing between you and the life you desire and deserve.

Where do they really want to be?

- Understand your clients' core values.
- Help them develop a strong vision that reflects living in alignment with core values.
- Coach to the gaps between values and vision.

BREAK THE CYCLE OF SELF-SABOTAGE

What is self- sabotage?

"Self-sabotage is when we say we want something and then go about making sure it doesn't happen." ~ Alyce P. Cornyn-Selby

www.trueselftotalhealth.com

BREAK THE CYCLE OF SELF-SABOTAGE

A talkative mouse, a rat, and a small shrew were trapped in a flood desperately clinging to the side of a lily pad - and sinking fast! A helpful owl came to their rescue, first telling the rat to clamp its teeth onto its talons as the owl flew to safety and then returning for the shrew, who received similar instructions. Finally, as the tides rose ever higher, the owl came back for our talkative mouse. "You are rescued and will live!" said the owl. "But I've noticed you talk a lot. Promise me you'll keep your mouth closed around my leg: and on no account open it, or you'll fall to your fate!" "Of course!" said the mouse, who proceeded to clamp his mouth onto his feathered rescuer's landing gear. They took off and flew across the floods. The owl was about to land on some high ground, but the mouse decided he wanted to land some other place to get dry. "Not there..." shouted the mouse, but those were the last words he ever spoke as he fell into the swirling waters below.

BREAK THE CYCLE OF SABOTAGE

Why do we get in our own way?

The three main situations when self-sabotage happens:

- Something good is going on for you and you make sure you kill it. – **Feeling unworthy**
- It's time to do something for yourself, but instead you do nothing. – **Procrastination**
- You fight for something you really want and when you get there, you destroy it somehow. - **Guilt**

BREAK THE CYCLE OF SELF-SABOTAGE

How do we break the cycle of self-sabotage to make shift happen?

...shift happens with

- Non-judgmental observation – Notice behavior (**Awareness**)
- Monitoring negative thinking – Journal (**Acknowledgement**)
- Challenging your self-sabotaging thinking – Reflect (**Acceptance**)
- Developing self-supporting thoughts and behavior (**Adapting**)
- Substituting limiting beliefs and attitudes with empowering actions (**Accountability**)
- Enjoying the creative transition to transformation journey (**Appreciation**)

DEVELOP SELF-SUPPORTING THOUGHTS AND BEHAVIORS

What behaviors and thoughts can we adapt?

- FOCUS ON DOING THNGS RIGHT INSTEAD OF DOING THE RIGHT THINGS!
- TAKE A GOOD, BETTER BEST APPROACH!
- TURN OBSTACLES INTO OPPORTUNITIES!
- CALM THE MONKEY MIND!

www.trueselftotalhealth.com

SUBSTITUTE LIMITING BELIEFS WITH EMPOWERING BELIEFS

LIMITING BELIEFS

- "It's not the right time."
- "It's too hard."
- "I don't know where to start."
- "It won't work for me."
- "I don't have time."

EMPOWERING BELIEFS

- "The present time is the right time."
- "I embrace challenges as an opportunity to grow."
- "I will start at the beginning."
- "I will turn obstacles into opportunities."
- "I have all the time I need for what I value."

"If you change the way you look at things, the things you look at change." - [Wayne Dyer](#)

SUBSTITUTE LIMITING ATTITUDES WITH EMPOWERING ATTITUDES

- Talk about your blessings more than your burdens.
- Focus on what you want, not what you don't want.
- Promote what you love instead of bashing what you hate.
- Imagine what could go right, instead of worrying about what could go wrong.

"Nobody can go back and start a new beginning, but anyone can start today and make a new ending." ~ [Maria Robinson](#)

ENJOY THE JOURNEY

Mindset of greatness and appreciation

Trust the wait.
Embrace the uncertainty.
Enjoy the beauty of becoming.
When nothing is certain, everything is possible.

Our greatness lies not so much in being able to remake the world...as in being able to remake ourselves. ~ [Mahatma Gandhi](#)

CREATE SYSTEMS FOR SELF-COMPLIANCE

Get your success on!

1. Focus more on the shift in daily habits to achieve your goals, than the outcome.

"Your audacious life goals are fabulous. We're proud of you for having them. But it's possible that those goals are designed to distract you from the thing that's really frightening you—the shift in daily habits that would mean a re-invention of how you see yourself." ~Seth Godin

2. Make your habits incredibly easy to start.

"Success is the sum of small efforts done day in and day out."

3. Reward yourself each time you practice your new habit.
