

# DS smart Kit Checklist

Use this checklist to confirm all equipment has arrived and is properly set up before training. Verify all equipment on hand is correct and assembled prior to training day.

If you are receiving equipment shipments, confirm that you have all of the following:

## ✓ Box 1

- › Vital Signs Monitor
- › Blood pressure cuffs
- › Pulse oximeter
- › Thermometer

## ✓ Box 2 (rolling stand and mounting kit will arrive pre-assembled)

- › Tablet
- › Rolling stand
- › Mounting kit (with tablet already secured inside)

### **From the equipment shipments and/or equipment you already have, build each DS smart kit.**

- › Tablet is mounted inside the mounting kit
- › Mounting kit is attached to the rolling stand
- › All accessories (cuffs, pulse ox, thermometer) are organized with the kit

## ✓ Your kit is ready for training.
