

Your Access to All Michael Cheney's Digital Products

Read Me First

It's **critically-important** you abide to the following "rules" here;

#.1 Only Request What You Need Right Now

All our products are protected inside members' areas. This means giving you access is a manual task which takes our staff time to set you up.

For this reason – and because we don't want you getting overwhelmed with information and just clogging up your hard drive with products – we ask you only request access one product at a time which you need in your business right now.

Michael is a firm believer in doing ONE THING AT A TIME – its served him well in business.

So if you are setting up Facebook Ads then request his Facebook product. If you're looking to build a list then grab his List Building program.

aBut please do only request one item at a time.

#2. Study, Re-Study and Apply What You Learn Before Requesting Further Access

We are very keen to see you succeed online.

And to this end – it's critically important you study the program you get access to, take notes, study it again and then apply what Michael taught you until you get results *before* you request access to another product.

We may even test you on this to ensure you have actually applied what you learned and got results before allowing access to anything else.

This is important because getting access to a program alone is not going to get you results – studying it, taking notes and taking action is.

#3. We Recommend You Study the Products In The Following Sequence

[Fan Page Money Method](#) – how to drive traffic and sales using Facebook

[The Commission Machine](#) – the fundamentals of making commissions plus lots of done for you affiliate promotions and bonuses

[Commission Black Ops](#) – advanced affiliate marketing methods
