BERWICK

ABOUT THE SHOW

When embarking on the concept of a journey, it was important that we showcase each performer and give them the opportunity to create their character and develop their storyline. What is essentially a showcase is so much more than that. This show can't be defined by the standard performance names – it means so much to us.

Each cast member was involved from the beginning as we discussed different parts of a person that make us whole. We delved into the expectations that society puts on us and, as a collective, we discussed each character: how they would dress, move, respond, and develop. Each cast member then chose the character that they felt resonated with them the most.

We worked together to create a playlist for each character and their journey through life – whether it be a day, a week, a month, a year, or a lifetime. Each character follows their own unique timeline. Along the way, we see the moments where two characters cross paths, the vulnerability of characters who can often be perceived as strong, and the growth of characters who feel misunderstood.

We believe this connection makes our show truly unique, and we are so honoured to share it with you.

THE JOURNEY

As we began collaborating on our second show it was a delight to reconnect with some of our Founder Foxes and meet new Feature Foxes. We are so proud of the vibrant community we are creating.

Stay Foxy!
