Brilliant and Simple ★★★★★

I've been in Marketing for over 20 years and this podcast helps me stay current on the most effective consultant tools and techniques available. Online marketing is constantly evolving technologically, but the fundamentals haven't changed much. John Jantsch knows the technology and the fundamentals and he makes both easy to understand and implement.

Mind blowing show ★★★★★

Love the show. Especially the in depth on the why which isn't often talked about in other shows. This is helpful and insightful. Thank you!

This is a high quality show about marketing. I listen to a variety of podcasts about marketing when I go running and this one is easily my favorite since there are always world class guests interviewed in a professional manner.

John's work via Duct Tape always elevates the listener. I know of no other authentic small business marketing and business growth influencer that I would prefer to send my connections and my friends. Wonderful quality, pace and most importantly, strong content that is valuable!
