

Wheel Chocks & Chains

TRAILER MOVEMENT DEFENSE SPECIFICATION

OSHA recommends trailer wheels be chocked during loading and unloading. APS Resource offers many sizes of laminated rubber, molded and aluminum wheel chocks to help prevent trucks from rolling.

Design Highlights

- Available in various sizes and styles
- 3/16" plated rust proof coil chain sold separately
- Optional "Truck Wheels Must Be Chocked" sign available
- Combine with APS &GO communication system for even greater safety at the dock
- APS Resource warrants this product will be free from defects in material and workmanship under normal use for (1) year
