

Newest in the Catalina 5 Series

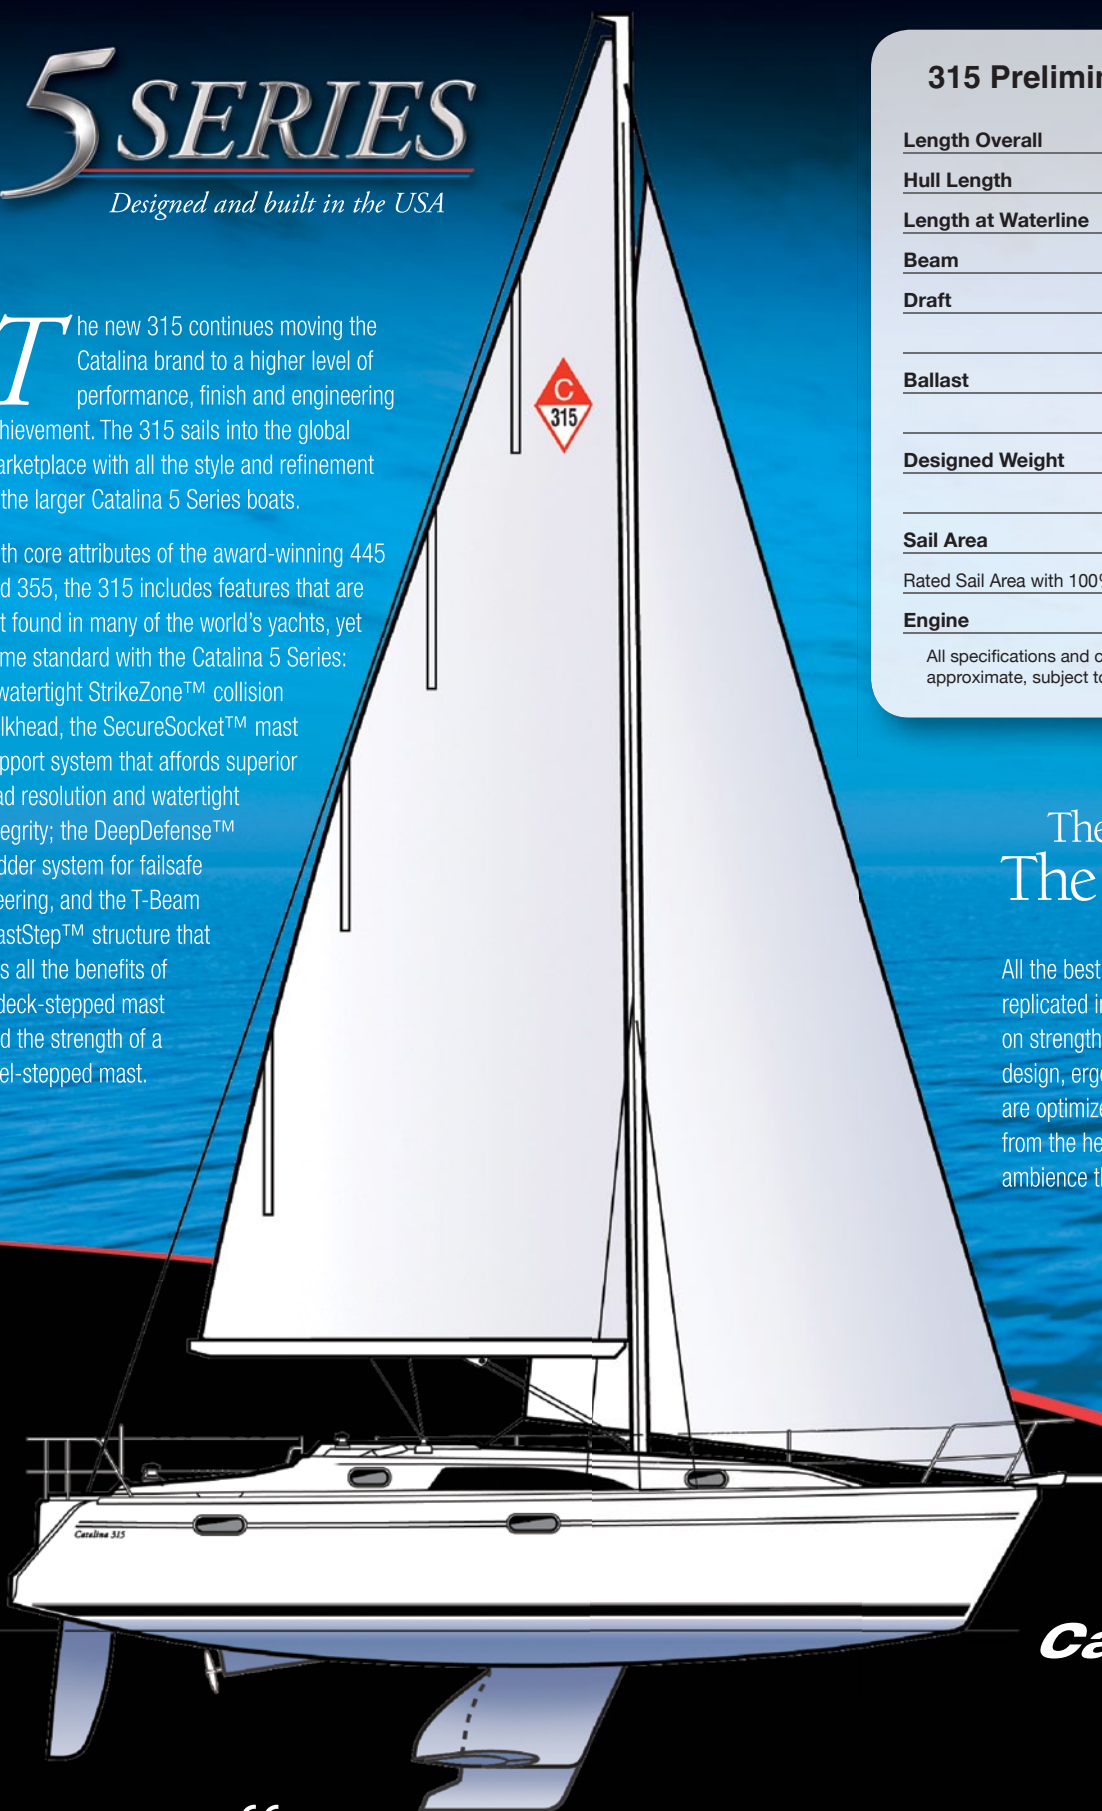

The Catalina 315

5 SERIES

Designed and built in the USA

The new 315 continues moving the Catalina brand to a higher level of performance, finish and engineering achievement. The 315 sails into the global marketplace with all the style and refinement of the larger Catalina 5 Series boats.

With core attributes of the award-winning 445 and 355, the 315 includes features that are not found in many of the world's yachts, yet come standard with the Catalina 5 Series: a watertight StrikeZone™ collision bulkhead, the SecureSocket™ mast support system that affords superior load resolution and watertight integrity; the DeepDefense™ rudder system for failsafe steering, and the T-Beam MastStep™ structure that has all the benefits of a deck-stepped mast and the strength of a keel-stepped mast.

315 Preliminary Specifications

Length Overall	9.49 m	31' 11"
Hull Length	9.45 m	31' 0"
Length at Waterline	8.08 m	26' 6"

The Closer You Look The Better It Gets!

All the best elements of the 5 Series Catalinas are replicated in the 315. You'll find a bold emphasis on strength, lead keels, sleek low profile cabin design, ergonomically correct cockpits that are optimized for efficiency, with great visibility from the helm. Plus, all the classic warmth and ambience that only a teak interior creates.
