Linking Youth and Families to Community Resources

Family Connection of Stephens County, Inc. wants all children to be healthy, ready to start school and do well when they get there, and all families to be stable and self-sufficient.

Our mission is to identify and monitor areas of community concern and to mobilize the community and its resources in a common effort to develop solutions.

This directory contains a wealth of resources available to facilitate these goals. The first section contains a quick find index with contact numbers. The second section contains more detailed information about each agency.

Our goal is to provide an easy-to-use directory; therefore, we welcome your comments and suggestions for future editions. Service providers are invited to add their information to the directory for free. Every time a provider joins us, our resource guide becomes more useful to people in our community.

We invite you to print a copy of the directory and display it for all to use. We especially encourage case managers to print this resource book and give it to clients, they will appreciate the opportunity to help themselves, plus it will save you a lot of time.

Thanks to Nancy Ekback for her hard work in updating and editing this year’s directory. A special thank you to Toccoa Falls College and the Northeast Georgia Employer Committee for their generous contribution to the printing cost.

Sincerely,

Allyson Warren
County Coordinator
