Curriculum

Philosophy

Discovery Time Preschool provides a non-denominational, Christian atmosphere to facilitate children's social, emotional, intellectual and physical growth. We respect each child as an individual; growing and developing in his or her own way. We encourage creativity, independent choice, responsibility, self-control, and the development of a positive self-image.

As our preschool is operated by Canal Fulton United Methodist Church, religious and cultural values will be shared with the children through stories, songs, and simple prayer.

Through a warm, loving environment and a comprehensive program we hope to prepare each child with the skills they will need to transition successfully into school. Our curriculum is based on Ohio's Early Learning and Development Standards which addresses the following:

Social Emotional Development - Promoting children's developing abilities to regulate attention, emotions and behavior and to establish positive relationships with familiar adults and peers.

Approaches Toward Learning - Promoting initiative and curiosity, encouraging children to participate in new and varied experiences. We provide opportunities for children to set, plan and achieve goals for themselves.

Cognitive Development and General Knowledge - Promoting reasoning and problem solving skills. We provide lessons, games and activities that develop concepts and skills in math, social studies and science.

Language and Literacy Development - Promoting children's growing abilities to communicate and express themselves through language. We provide lessons and activities that promote the concepts of print, comprehension, phonological awareness and letter recognition.

Physical Well-Being and Motor Development - Promoting self-help skills, providing lessons and activities that promote good nutrition, physical activity and healthy habits. We provide opportunities for large and small muscle development.
