

# Join Us!

This summer in the  
**Philippines**

July 3-Aug. 3, 2017

Jerrih & Ercilia Silva  
4300 South US Hwy. 281 Edinburg, TX 78539

## Tools and Activities

The "Evangeli cube" is effective for all kind of evangelistic meetings both Indoor and outdoor, in churches, parks, jails, market places etc.

At night we will be showing the Jesus film in churches and in public areas.

In personal evangelism, we will use "Cross talk" designed to share the gospel with children.

### School Outreach

We sent out two large boxes of school supplies ahead of time. We will distribute these materials with the Gospel of John and Romans.

## Our Team

Our team is excited about this trip to the Philippines this summer. I'm certain that this will be their best summer ever. I'm just hoping that they will be able to experience how God is going to use them to share the gospel in the places we visit. Since this is their first mission trip, and they don't have previous evangelistic experience, I decided to spend more time training this team for evangelism.

We do have some needs on this trip that you might be able to help us such as meeting the needs of a local church in my home village.

## Team project: The Church in Caloc-an in Northern Mindanao

**Caloc-an** is a small fishing village in Mindanao, in the Southern part of the Philippines. Most of my family lived there and still many of them had no contact with the gospel. There was no evangelical church in Caloc-an for many years.

Two years ago while vacationing with my family, I noticed a group of believers building a church, which, to my surprise, happened to be an evangelical church. We attended one Sunday and we were able to help out with the cementing of the floor. This church was started nine years ago by a local pastor in the neighboring village and that is when they saw people come to Christ.

Children's Sunday School

Church young people

This small area where they use as Sunday school room need a make over. The estimated cost to replace the roof of the Sunday school area for children is \$500.00 This will protect the children during rainy season.

The roof of the church building is temporary made of palm leaves. And needs to be replaced

The estimated cost to replace the roof with corrugated galvanized zinc is \$1,200.00

**The total amount we want to raise is \$2,000.00**

If you would like to know how you can help us on this projects, please give me call (956) 380 8225 or email me: [jsilva@riogrande.edu](mailto:jsilva@riogrande.edu)

This vehicle is in bad shape!

The church transportation the key aspects of their ministry to bring the children to church. The pastor said that it's no longer safe to transport children on this conditioned. It need to be fixed right away. The cost to conditioned this vehicle is \$300.00 US dollars. I told the pastor to go ahead and take it to the shop. Now it looks better It just need some paint.
