

“Give Ye Them To Eat”

An Integrated Development Program

August 2018

Dear Friends,

Greetings from your home away from home in Puebla, Mexico! We hope you are very well and planning a trip to Puebla and Tlancualpican soon.

We would like to share another opportunity for your solidarity with “Give Ye Them to Eat” Ministry. We know how much you have already done with us, and we are grateful.

In the “Tree of Life Training Center” we have four trucks. They are very old; some are practically useless and are gas-guzzlers. If we sell them all we can come up with about \$10,000 US dollars.

We want to sell what we have and replace them with two newer trucks, in good condition, safe and more economical. They would both be multi-use vehicles:

A Ford Ranger double cabin (or similar) 2016/17 with low mileage. This would be the truck that Catalino Sanchez (Coordinator of the “Tree of Life” Training Center) uses to travel back and forth between Puebla and Tlancualpican. On these trips, he also takes many things to the Center that are needed for the development work and for our groups. At times, it would transport people. The truck would do some hauling with a small trailer. For heavier loads, we would occasionally contract with a local person who has a stronger truck or tractor. Cost: more or less \$20,000

A smaller, one-cabin 4-cylinder truck 2012, 13 or 14 that gets good gas mileage. With this truck we would pick up the workers early in the morning; pick up their lunches from their families and take them home in the afternoon. We would take the goat milk into town to sell. We would use this truck for dozens of different kinds of errands every week. And it would also serve for work on projects as much as 1.5 hours away – like the building of straw-bale homes. The idea is to spend up to \$10,000 on this truck.

The total amount we need for the two trucks is \$30,000 dollars. But because we feel fairly confident that we can get \$10,000 by selling the four trucks, we just need \$20,000.

If you decide that you can commit to raising any amount of money towards the goal of \$20,000, please let us know. These vehicles will contribute greatly to the many ministries and people served by GYTTE. Thank you for considering this petition!

In God’s love,

Catalino Sanchez, Clara Palacios, Miguel Mairena and Nan McCurdy
