

Mother's Day 2020

Talk About It

Prepare: Gather some materials you will need for our time of worship today: a bible, a notebook, pen or pencil, communion supplies (juice and bread), family or friends that are quarantined with you.

Pray: Ask God to calm your mind and to prepare your heart to hear and understand what He is trying to teach you.

Read: Acts 16:1-3, 2 Timothy 1:5, 2 Timothy 3:14-17 have the oldest person in the family read these out loud.

Pause: Take a deep breath. Give to God anything you are worried or stressed about. Ask God to teach you as you hear from scripture today. Watch Harold's Mother's Day message on having a spiritual impact on our children.

Discuss: Share a story from your life how your mother or a motherly figure has shared their faith with you? What have been some of the best faith lessons you have learned from your mother or a motherly figure in your life?

Pray: Thank you for the people and experiences in my life that have led me closer to you Lord. Let us continue to be courageous and faithful throughout these changes in our world, especially as we start to "open" back up, let us be considerate and compassionate to those around us. Let us rejoice always in the You and the Peace You give. AMEN

Praise: Give Praise for God's faithfulness and love from generation to generation. Share a part of your faith story that you want to make sure your children and your children's children hear.

Take communion remembering how truly thankful we are for Christ's body and blood given for us.

Talk About It is a ministry of Countryside Christian Church to bring scriptural conversation into the home.

These can be used with the current sermon series on our website or by themselves.

Grow yourself and your family as you study God's word together.
