

## Fall/Winter 2020 Worship Service Schedule

Colder weather is here and Countryside's schedule for our "in person" services with virus precautions in mind is listed below. We have added a service in order to social distance, and each detail of this schedule has been thought through considering safety and freedom. We will continue to take precautions against the spread of sickness. Communion will be served with that in mind. High touch areas will continue to be sanitized regularly. Our building is currently equipped with three UV Light/HEPA Air Filtration systems. Masks are always welcome. If you are sick, please take advantage of the Facebook Live option at home. We are trying to be respectful and considerate of over 200 people as we make these plans. Thanks for your grace and patience.
