

Nurture Team

Information and Suggestions for Teams Hosting Fellowship Time

Try to arrive 10 -15 minutes early before church to get things set up and ready. Then it only takes a couple of minutes after worship to set things out.

Coffee and filters are in the cabinet to the right of the Bunn coffee maker.

Use 2 scoops of coffee per pot. We supply both regular and decaf coffee for fellowship.

Coffee can be put into pump pots which hold about a pot and a half each. They keep the coffee hot for a few hours.

There are some coffee fixings next to the coffee maker that need to be set out. The paper cups for cold drinks, plates and napkins are in cabinet to the right when you come in the door to kitchen. All extra supplies are in a large cabinet in the Aldersgate room (cups, plates, napkins, stirrers, sweetener, sugar, coffee filters, coffee, creamer, etc.)

We ask that you bring treats from home — something sweet and something a little healthier are suggested. (Veggies, fruit, cheese and crackers.) Remember we are not serving lunch, just snacks and drinks for some fellowship time with our church friends.

We ask you to use the glass coffee mugs when possible. Try to use paper coffee cups for our to go drinkers, they will be kept in the kitchen by the coffee pot if needed.

You are also responsible to clean off tables, and wash coffee mugs or items used to serve treats and put them away after fellowship.

Questions? Contact Vicky at msvjmoore@cox.net or 213-0230

Thanks so much for hosting!!
