

Power Box Battery Enclosures™

POLE MOUNT AND CHEST STYLE

Chosen by professionals...

...favored by experienced installers since 1993.

MANUFACTURED BY
DIRECT POWER & WATER CORPORATION

STANDARD FEATURES - ALL ENCLOSURES

All Enclosures

- .125" 5052-H32 aluminum
- White polyester powder coat finish
- NEMA 3R design
- Stainless steel continuous hinge
- Screened/filtered louvers
- Stainless steel padlock hasp
- All welds sanded smooth

Pole Mounted Style Only

- Two 1/2" electrical conduit holes
- Removable component plate
- Two U-bolts provided
- Custom colors

Chest Style Only

- Ground skids
- Reinforced top edge
- Custom colors

Direct Power & Water Corporation has built a reputation of producing heavy duty hardware for dealers, integrators and installers who require the best possible for their customers, including Standard and Custom battery enclosures. Standard enclosures are built for the Concorde, Deka (MK), and Surette batteries, although other batteries will fit within the same form factor. We make custom enclosures for virtually any battery. All of our enclosures are manufactured from heavy materials that don't lose their shape after being loaded with batteries.

OPTIONAL FEATURES - ALL ENCLOSURES

All Enclosures

- Rigid polystyrene insulation
- Hot-dip-galvanized steel
- Stainless steel construction
- Custom finishes
- Integrated PV module mounts
- Active heating/cooling equipment
- 12-gauge steel
- 14-gauge steel
- Component mounting plate
- Separate electronics compartments

Pole Mounted Style Only

- Equipment shelves
- 19" and 23" rack mount rails

Chest Style Only

- Carrying handles

We specialize in custom enclosure design and fabrication. Please contact us with your special requirements. We also produce inverter enclosures, pump boxes, generator enclosures and combination battery/equipment enclosures.

CHEST-STYLE ENCLOSURES

Many enclosures are listed for Concorde, Deka (MK), and Surrette batteries, but we can build them to virtually any size. Ventilation louvers are punched on both sides - low on one side and high on the opposite side to promote convective flow. Enclosure sizes other than those listed are available.

POLE-MOUNTED ENCLOSURES

HINGE COVER

The hinge cover enclosures are manufactured for common battery sizes made by Concorde and Deka (MK), although other non-listed batteries will also fit in the same enclosures. Ventilation louvers are punched on both sides - low on one side and high on the opposite side to promote convective flow. Enclosure sizes other than those listed are available.

POWER-FAB BATTERY ENCLOSURES
incorporate a number of
customizable features:

- Top-loading enclosures are available for GNB Absolyte IIP, XL, Deka Unigy batteries and others. Front access is provided for battery maintenance.
- Active heating and cooling controls and equipment manufactured by McLean, Stego, and Ice Qube are available options.

POWER-FAB'S BATTERY ENCLOSURE
design provides an easy, affordable
battery storage solution:

- Standard enclosures are available in front opening Pole-Mount and Chest-Style pad mount designs.
- Pole Mounts are available in screw cover and hinge cover designs.
- Standard hinge cover pole mount enclosures are manufactured for the Deka (MK Battery), Concorde, and 220 AH/6-volt "golf-cart" type batteries.
- Standard Chest-Style enclosures are manufactured for Deka, Concorde, and Surrrette batteries in addition to the generic Groups 27/30, 4D, 8D, L16, and "golf-cart" type batteries.
- Standard enclosures are manufactured with .125" 5052-H32 aluminum.
- All die marks and welds are sanded smooth. Boxes are finished with a reflective bright white polyester powder coat to minimize internal heat gain.
- All enclosures are provided with integrated louvers located to promote convective air flow through the enclosure to reduce internal temperatures and remove gasses. Filters are located over the louvers to keep out dust and insects. The filters are removable for cleaning or replacement.
- All standard enclosures are built to meet NEMA 3R specifications. Enclosures are available in NEMA 4 and NEMA 4X.
- All battery/equipment enclosures have a limited five year warranty.

BB1 - GRP 27/30

BB6 - GRP 27/30

BB4 - GRP 27/30

**Please feel free to contact us for a
quotation for a size or enclosure not listed.**

(800) 260-3792

CHEST-STYLE ENCLOSURES

Our Chest-Style Enclosures can be customized for any number of batteries, or to fit any other needs you might have for a heavy duty, carefully constructed custom-made enclosure.

CUSTOM POWER BOX ENCLOSURES

From design to manufacturing, we specialize in custom enclosure design and fabrication. Please contact us with your special requirements.

TOP-OF-POLE MOUNTS

POWER RAIL™

DPW Power-Fab has built a reputation for producing heavy duty hardware for dealers, integrators and installers who require the best possible for their customers, including Standard and Custom battery enclosures. Standard enclosures are built for the Concorde, Deka (MK), and Surette batteries, although other batteries will fit within the same form factor. We make custom enclosures for virtually any battery. All of our enclosures are manufactured from heavy materials that don't lose their shape after being loaded with batteries.
