

SKR3813DLED

LED PAR38 LED LAMP

The PAR38 is a highly efficient LED lamp which uses only 13 watts of energy, significantly reducing your carbon footprint while maintaining a very high quality of light. It is ideal for retail lighting, residential lighting, recessed lighting and architectural lighting. All Maxlite LED products are RoHs compliant, and contain no mercury.

FEATURES:

- Lumens: 3000K: 840 Lumens / 5000K: 880 Lumens
- 13 Watts
- 120V / 60Hz
- 3000K or 5000K
- 25,000 Hour Life (L70)
- 80 CRI
- Solid aluminum housing for thermo heat protection
- Color matched LEDs
- 5 Year Warranty
- Dimmable 5%-100%
- White Finish

CONSTRUCTION:

LEDs: All LEDs are matched for color and CRI. The stated 25,000 Hour life is based on functional light quality. After 30% lumen depreciation MaxLite considers the functionality of the lamp to be ended. That is end-of life. Even though the lamp is still at 70% of initial lumens.

Housing: The body of each lamp is solid aluminum. The aluminum acts as a heat-sink providing thermo heat conductivity. This keeps the LED junction temperature well below the manufacturer's specification. The lamps stay cool and the lumens are maintained for longer life. The bodies are molded into fin shapes to increase the surface area of the aluminum. The larger the surface area the more effective is the cooling.

Base: The PAR38 has a standard E26 Base.

DIMENSIONS:
