To make a claim under the Limited Warranties, the Owner should have the original system installer submit an Return Merchandise Authorization (“RMA”) claim (on behalf of the Owner) to Silfab (as directed on *silfabsolar.com*) within one year of the date that the defect was discovered and in any event before the end of the warranty period set out in respect of the applicable Limited Warranty.

The RMA claim inquiry must identify the defective Product(s) (by serial number) and the basis for the claim, and evidence that the Products remain installed at their original installation location. Upon receipt of the RMA claim inquiry, Silfab Solar may, in its sole discretion, take further steps to assess the warranty claim including by (i) requesting further particulars regarding the claim from the Owner; (ii) requiring that the Owner ship the allegedly defective Products to Silfab for inspection and/or testing, in which case the Owner will be responsible for the costs of packaging, loading and shipping the Products to Silfab in accordance with Silfab’s instructions; (iii) attending (or cause its designee to attend) the location where the Products are installed to inspect the Products and the installation thereof, in which case the Owner will grant Silfab (or to its designee) access to such location during regular business hours for such purpose; or (iv) doing any combination of (i), (ii) and/or (iii).

If Silfab Solar determines, in its reasonable judgment, that the Products are not defective (or if Owner refuses to cooperate with Silfab Solar as Silfab Solar assesses the claim), Silfab Solar may invoice the Owner for the demonstrable costs of any testing that Silfab undertook to assess the warranty claim and the Owner will pay such invoice within 15 days of receipt. If Owner has shipped allegedly defective Products to Silfab Solar as part of the claims assessment process, Silfab will return such Products to the Owner at the sole cost and expense of the Owner.

The Owner has the right to pursue claims under each of the Limited Warranties; provided, however, that if claims arise under multiple Limited Warranties from a single incident, then if Silfab Solar remedies such incident, Silfab Solar shall be deemed to have resolved all applicable Limited Warranty claims arising from such incident.

The Owner authorizes the original system installer to submit and pursue claims under the Limited Warranties on behalf of the Owner. The Owner agrees that where Silfab receives a warranty claim from an installer on behalf of the Owner, Silfab may treat that installer as Owner’s authorized representative and agent (the “**Authorized Representative**”) for all matters pertaining to the warranty claim unless and until otherwise advised in writing by the Owner. Without limiting the foregoing, Silfab may rely on information and instructions received from the Authorized Representative in respect of such claims and may issue refunds or credits (as may be applicable) to the Authorized Representative on behalf of the Owner.
