**Nature & Future**  
SOLAR TECHNOLOGY & SOLUTIONS

New Factory-July 2015  
300MW Capacity with automated production

## COMPANY INTRODUCTION

Founded in 2003, Solarland has evolved to meet the ever increasing demand for solar energy products and power solutions. Our commitment and partnerships with our customers, together with continuous investment in facilities, equipment and technology, have made Solarland a market leader.

SOLARLAND USA is the factory owned exclusive distributor of Solarland® products in North America.

Small Panel Manufacturing

Marketing & Sales

US Warehouse - Ontario, California

## HUMANITARIAN PROGRAMS

Solarland® is dedicated to bringing solar light & power solutions to the over 1.6 billion people who still have no access to an effective power/light source. Working with global corporations & partnering with various humanitarian organizations, we have developed innovative, effective products & solutions meeting different needs in different parts of the world. Our lighting & power solutions have been successfully implemented all around the world!

Solarland® continues to follow its corporate philosophy and mission: **HUMAN, PEACE, SHARE, bringing green energy solutions to the world!**

# SOLAR PANELS

The Solarland solar panels are designed and manufactured to meet all required certifications.

Our 3 stage 'Flash Test' quality control process ensures all panels are flash tested at critical times in the manufacturing process.

Manufactured using only the highest quality components, our panel designs provide optimized module life and performance. Our panels have been utilized in many stand-alone and remote applications and our reliability has been proven time and again.

## KEY COMPONENTS:

|                 |  |
|-----------------|--|
| Glass:          | High Transparent, low iron tempered glass (3.2mm) 1/8"                           |
| Encapsulant:    | EVA  |
| Back Cover:     | White Polyester TPT  |
| Frame:          | Heavy-duty, silver anodized aluminum   |
| Junction Boxes: | A wide range of junction boxes are used depending on application and panel size. |

## WARRANTY:

Workmanship:  
**2 Years**

90% Power Output:  
**10 Years**

## CERTIFICATIONS

The Solarland factories have a proud record of meeting the standards required by the reknown organizations below.

# Off Grid Solar Panels

Solarland® offers a wide range of poly-crystalline and mono-crystalline panels designed for both on-grid and off-grid applications. All panels are constructed with the highest quality components and are certified by the various renown organizations listed above.

**All panels are designed and built in accordance with the CE IIEC61215:1995 standard and UL1703 standard.**

# Off Grid Solar Panels

CSA CERTIFIED FOR CLASS 1 DIVISION 2  
GROUPS A, B, C & D, T3 HAZARDOUS ENVIRONMENTS

The Solarland® range of Class 1 Division 2 modules offer outstanding performance and reliability in the most demanding applications.

**50mm Frame Depth** Hint: The CSA panels with a production code ending with "234" are 50mm frames.

Panels listed on this page have been developed specifically for the Oil & Gas Industry.

## CSA C1D2 Panels - 50mm Frames

Cables: These panels do not come with cables. We recommend the following cables:

|          |  |
|----------|--|
| SLCBL-19 | 3 Feet #10AWG Cable with MC4 Male Connector/Open End   |
| SLCBL-20 | 3 Feet #10AWG Cable with MC4 Female Connector/Open End |

Other cable lengths are available, see page 11 for full listing

**The 4 panels listed above all work with the SLB-0114 Wall/Side of Pole Mount**

**CSA CERTIFIED** These panels are not for Hazardous environments

**Solarland Pro Charge Junction Box Used on All CSA Certified Panels**

# Universal Single Panel Pole/Wall Mounts

The SLB mounting kits are designed for use with the Solarland SLP Series solar panels, but can be easily adapted to work with most other brands of solar panel. All kits include stainless steel hardware.

**U-Bolts and Hose Clamps Available Separately and are NOT supplied with the kits.**

## UNIVERSAL POLE/WALL MOUNTS

**SLB-0102**

Z Bracket  
All Panel Sizes  
Large Z Kit of 4  
Aluminum

**SLBRKT-17**

Z Bracket  
All Panel Sizes  
Small Z Kit of 4  
Aluminum

**SLB-0103**

Tilt Style  
45W - 150W Panels  
Tilt Mount Kit  
Aluminum

**SLB-0119**

Clamp Style  
3W - 5W Panels  
Aluminum

**SLB-0120**

L Bracket - Clamp Style  
10W - 25W Panels  
Suits Panels 357mm(14.05") Wide  
Aluminum

**SLBRKT-02**

L Bracket - Clamp Style  
10W - 25W Panels  
Suits Panels 357mm (14.05") Wide  
Anodized Aluminum

**SLB-0112**

Pole - Single Arm  
10W - 30W Panels  
Suits Panels 540mm(21.65") Wide  
Aluminum

**SLB-0113**

Pole - Double Arm  
40W - 95W Panels  
Suits Panels 540mm(21.65") Wide  
Aluminum

**SLB-0114**

Pole - Double Arm  
40W-150W Panels  
Suits Panels 675mm (26.57") Wide  
Aluminum

**U-Bolts**

Sold Separately  
To suit 1.5" - 6" Poles  
Zinc Plated  
Plate & 2 Nuts Included

## STAINLESS STEEL MARINE PANEL MOUNTS

### Flat Bar Mount Kits

Specifically designed to work with the  
**Solarland SLP Series Panels.**

**SLBRKT-08:** Used with Solarland 10W - 20W Panels

**SLBRKT-10:** Used with Solarland 30W Panel

**SLBRKT-11:** Used with Solarland 45W - 150W Panels

**SLBRKT-13:** Used with Solarland 70W Skinny Panel

### SLBRKT-16 Stanchion Mount

Tilting mount kit for use with the flat  
bar mounts.

### Hose Clamps:

|         |                     |
|---------|---------------------|
| SLHC-36 | #36 1-13/16 - 2-3/4 |
| SLHC-44 | #44 2-5/16 - 3-1/4  |
| SLHC-52 | #52 2-13/16 - 3-3/4 |
| SLHC-60 | #60 3-5/16 - 4-1/4  |
| SLHC-72 | #72 4-1/8 - 5       |
|         |                     |
|         |                     |
|         |                     |

### U-Bolts:

|           |                                 |
|-----------|---------------------------------|
| SLUB-0001 | 1.5" Pole                       |

Our Mounts Are Universal & Can be Used With Most Panel Brands

# Solar Controller

We offer a wide range of solar controllers utilizing PWM and MPPT technology. These controllers are highly efficient and are ideal for many off grid applications including RV, Boat, Cabins, Telecommunications and small industrial.

## NR SERIES - PWM Charge Controller

### Features:

- Highly Efficient PWM Charge Controller
- Convenient ON/OFF switch
- LED Display Show System Status
- Automatic 12V/24V Detection

### Protections:

- Reverse Polarity
- High/Low Voltage
- High Current
- Short Circuit

### 2 Models Offered:

**SLC-NR2410A**  
12V/24V 10A Controller

**SLC-NR2420A**  
12V/24V 20A Controller

Simple, affordable controller designed for smaller off-grid applications. Utilizes industrial grade MCU SCM with high performance, efficiency and quality.

### Features:

- 1A USB Output
- Tandem charging improves efficiency by up to 6%
- 12V Only

### Protections:

- Reverse Polarity
- High/Low Voltage
- High Current
- Short Circuit

### 1 Model Offered:

**SLC-NR1012UH**  
12V 10A Controller

NR SERIES - PWM Charge Controller(USB Mode)

## MPPT SERIES - MPPT Charge Controller

### Features:

- Increases Charging Efficiency by up to 30%
- Highly Efficient MPPT Charge Controller
- Simple LED Display
- Automatic 12V/24V Detection

### Protections:

- Reverse Polarity
- Overcharge
- Overdischarge
- Overload
- Short Circuit

### 2 Models Offered:

**SLC-MPPT1024**  
12V/24V 10A Controller

**SLC-MPPT2024**  
12V/24V 20A Controller

An affordable MPPT (Maximum Power Point Tracking) controller. Up to 30% more efficient as compared with similar PWM type controllers.

## GP SERIES - PWM Charge Controller

### Features:

- Highly Efficient PWM Charge Controller
- Simple Button Operation
- LCD Display Show System Status
- Automatic 12V/24V Detection

### Protections:

- Reverse Polarity
- High/Low Voltage
- High Current
- Short Circuit

### 2 Models Offered:

**SLC-GP2024**  
12V/24V 20A Controller

**SLC-GP3024**  
12V/24V 30A Controller

An intelligent, multi-purpose solar charge controller with a user friendly LCD display. Controller parameters can be adjusted to meet application requirements.

## PHOCOS CIS Charge Controller

Industrial grade controller suitable for most extreme working conditions.

### Features:

- Robust Aluminum Housing, IP68 Encapsulated
- 4 Stage PWM Series
- Automatic 12/24V Detection
- Low Voltage Disconnect
- Flexible Load Timer Functions
- Programmable Using Remote SLC-CIS-CU

### Models Offered:

**SLC-CIS-N-05-1.0**  
12V/24V 5A Controller

**SLC-CIS-N-10-1.0**  
12V/24V 10A Controller

**SLC-CIS20-1.1**  
12V/24V 20A Controller

**SLC-CIS-CU**  
IR Programmer

## PHOCOS CML Charge Controller

A sophisticated, low cost controller. Micro-controller provides high-efficiency charging and a number of outstanding status display, warning and safety functions. For LCD display pair this item with the SLC-SMM unit.

### Features:

- PWM Series, No Regulation
- Automatic 12/24V Detection
- Acoustic Load Disconnect Warning
- Integrated Temperature Compensation
- 3 LED Indicators
- Can Be Used With CMM Remote Display

### Models Offered:

**SLC-CML20-2.1**  
12V/24V 20A Controller

**SLC-CML15-2.1**  
12V/24V 15A Controller

## PHOCOS CMM Remote Display

Remote display for use with the SLC-CML controllers. Displays panel current, load current and battery voltage of the PV system as true values.

### Features:

- 3 Digit LCD Display
- 3 Position Switch to Select Value for Display
- DIN Rail Mount Ready

### Models Offered:

**SLC-CMM**

# Solar Controller

The Blue Sky and Genasun family of solar controllers are proven for reliability, quality and cost effectiveness. The MPPT models are patented and provide excellent, versatile performance. The latest models offer lithium battery charging capability.

## SLC-SC30 Charge Controller

### Features:

- Entry level PWM controller charges 12V batteries at up to 30A
- Flush mount design and LED display make this ideal for RV and Marine applications
- 12V PWM Controller
- Maximum PV Voltage 24V
- Maximum PV Power 450W
- 3-Stage, Plus Equalization
- Digital Display

1 Model Offered:

SLC-SC30

Flush mount for RV/Marine applications

## SLC-SB3000i Charge Controller

### Features:

- Featuring patented MPPT technology the SB3000i charges 12V batteries at up to 30A from conventional 36 cell PV modules.
- Up to 30% more efficient as compared with similar PWM controllers.
- 12V MPPT Controller
- Maximum PV Voltage 40V
- Maximum PV Power 400W
- 3-Stage, Plus Equalization
- Digital Display
- Remote Display Option

1 Model Offered:

SLC-SB3000i

Flush mount for RV/Marine applications

## 65W/5A/12VDC MPPT Controller w/LVD

### Features:

- 99.85% Peak Efficiency
- Electrolytic-Free, Ceramic Capacitors
- Doesn't wear out from heat
- High-Speed MPPT
- Advanced electronic protections
- 10 Year Warranty

1 Model Offered:

SLC-GV-5-Pb-12V

Use with 12V Lead Acid/AGM/Gel/Sealed/Flooded

## 65W/5A/12VDC MPPT Controller

### Features:

- 99.85% Peak Efficiency
- Electrolytic-Free, Ceramic Capacitors
- Doesn't wear out from heat
- High-Speed MPPT
- Advanced electronic protections
- 10 Year Warranty

1 Model Offered:

SLC-GV-5-Li-14.2V

Use with Lithium Batteries

## 140W/10.5A/12VDC MPPT Controller

### Features:

- 98.3% Peak Efficiency
- High-Speed MPPT
- Advanced electronic protections
- Tiny night consumption (0.9mA)
- Marine-Grade
- 5-Year Warranty

1 Model Offered:

SLC-GV-10-Pb-12V

Use with 12V Lead Acid/AGM/Gel/Sealed/Flooded

## GV-BOOST CONTROLLERS

The industry's most efficient boost controllers. These controllers boost lower-voltage solar panels up to charge higher voltage lithium batteries up to 48V nominal

### Features:

- 99% Peak Efficiency
- Continuous MPPT
- Marine-Grade
- Advanced electronic protections
- 5-Year Warranty

Various Models Offered

105-350W Solar/LEAD ACID 12V/24V/36V/48V  
CUSTOM LITHIUM VARIATIONS

## MC4 Cables & Connectors

The Multi-Contact Solarline family of connectors delivers a flexible system solution for time saving, dependable cabling of solar panels. Most manufacturers provide the larger panels with cables and MC4 style connectors attached for simple plug and play. These are designed for up to 1,000 volts and 30 Amps.

We offer several configurations and options for parallel and series connections.

### #10AWG Cable with MC4 Male & MC4 Female at either end

SLCBL-01 6 Feet /SLCBL-02 15 Feet  
SLCBL-03 30 Feet /SLCBL-04 50 Feet  
SLCBL-05 100 Feet

### #10AWG Cable with MC4 Male with open end

SLCBL-19 3 Feet /SLCBL-21 10 Feet

### #10AWG Cable with MC4 Female with open end

SLCBL-20 3 Feet /SLCBL-22 10 Feet

### MC4 Connectors (Sold Separately)

SLCBL-08 Male /SLCBL-09 Female

### MC4 Wrench

SLCBL-43

### MC4 Parallel Connectors

SLCBL-45 (Set 2)

### MC4 Parallel Connectors Y Style - Flexible

SLCBL-46 (Set 2)

### MC4 Connector w/Diode

SLCBL-47

### MC4 Parallel Connectors 3 Stage

SLCBL-48 (Set 2)

### MC4 Parallel Connectors X Style - Flexible

SLCBL-49 (Set 2)

### MC4 Branch Connector 1 Female/2 Male

SLCBL-41

### MC4 Branch Connector 2 Female/1 Male

SLCBL-42

SLCBL-52

# 12VDC Solar Trickle Charger Kits

## - Simple "Plug & Play" Designs

Ideal for charging and maintaining flooded lead acid 12V batteries. Works with automobile, tractor, RV, boat batteries and more!

### SLCK-040-12 (Rigid Panel Design)

The 40W model is suited for 1 battery systems where energy demand is light. Can also be used for vehicles in storage to maintain batteries.

#### Kit Consists:

1 x SLP040-12U 40W/12V Solar Panel  
1 x SLSC-02 Elite Battery Clamp Set  
1 x SLC-1203B 3A PWM Solar Controller (Loose)  
1 x Cloth Carry Case  
15' Cable  
Panel Size: 27" x 22" x 1.5"

**Carton: 30" x 5" x 24"**  
**Weight: 17 lbs**

This item can be shipped UPS

### SLP090F-12S (Folding Panel Design)

The 90W model is suited for 1~2 battery systems where energy demand is light. Can also be used for vehicles in storage to maintain batteries.

**This Unit Assembled In The USA!**

#### Kit Consists:

2 x SLP045-12U 45W/12V Solar Panels (Hinged)  
1 x SLSC-02 Elite Battery Clamp Set  
1 x SLC-NR2410A PWM Controller  
Waterproof Weather-Pack Connectors  
1 x Hard Shell Carry Case  
16' Cable w/inline Fuse  
Panel Folded: 27" x 22" x 3.5" (27lbs)  
Panel Open: 43" x 27" x 1.5"  
Case: 28" x 24.5" x 5.3" (12lbs)

**Carton: 30" x 8" x 27"**  
**Weight: 40 lbs**

This item can be shipped UPS

### SLP130F-12S (Folding Panel Design)

The 130W model is suited for 1~2 battery systems where energy demand is moderate. Can also be used for vehicles in storage to maintain batteries.

#### Kit Consists:

2 x SLP065-12U 65W/12V Solar Panels (Hinged)  
1 x SLSC-02 Elite Battery Clamp Set  
1 x SLC-1210 10A PWM Solar Controller (Mounted)  
1 x Hard Shell Carry Case  
16' Cable w/inline Fuse  
Panel Folded: 40" x 21" x 3.5" (39lbs)  
Panel Open: 41" x 40" x 1.5"  
Case: 41" x 22" x 5" (17lbs)

**Carton: 44" x 8" x 26"**  
**Weight: 50 lbs**

This item can be shipped UPS

# 12V VLRA Batteries

## Valve Regulated Lead-Acid Batteries

The B&B range of maintenance-free VLRA batteries offer high power density & low self-discharge, thus providing exceptional performance while remaining economical to use.

### Sealed Construction

The unique construction and sealing techniques ensure all B&B batteries are classified 'Non-Spillable' and meet all IATA requirements. (IATA Dangerous Goods Regulations)

### Electrolyte Suspension System

All B&B batteries utilize an electrolyte suspension system consisting of a glass fiber separator material. This suspension system helps to achieve maximum service life, by fully retaining the electrolyte and preventing its escape from the separator material. No silica gel or other contaminants are used.

### Maintenance Free Operation

The design and sealed nature of these batteries allows them to be truly maintenance-free.

### Low Pressure Venting System

A safe, low pressure venting system design is incorporated into all B&B batteries to release excess gas and reseal automatically. This venting system, coupled with the high recombination efficiency make B&B batteries one of the safest VLRA batteries available.

### Heavy Duty Grids

The heavy duty lead calcium alloy grids provide an extra margin of performance and service life in both float and cyclic applications, even in conditions of deep discharge.

| Series | SLUSA #      | Ah Rating | Size (L x W x H)     | Weight | Rating |
|--------|--------------|-----------|----------------------|--------|--------|
| BC     | BB-BC12-12   | 12Ah      | 6" x 4" x 4"         | 9lbs   | Good   |
| BC     | BB-BC17-12   | 17Ah      | 7.25" x 3" x 6.6"    | 13lbs  | Good   |
| BC     | BB-BC40-12   | 40Ah      | 7.75" x 6.6" x 6.75" | 28lbs  | Good   |
| BC     | BB-BC75-12   | 75Ah      | 13.8" x 6.6" x 6.85" | 45lbs  | Good   |
| BC     | BB-BC100-12  | 100Ah     | 13" x 6.8" x 8.5"    | 63lbs  | Good   |
| BC     | BB-BC200-12  | 200Ah     | 20.6" x 8" x 9.5"    | 122lbs | Good   |

| MPL    | BB-MPL80-12  | 80Ah      | 10.6" x 6.9" x 9"    | 58lbs  | Best   |
| MPL    | BB-MPL90-12  | 90Ah      | 12.1" x 6.9" x 9.1"  | 66lbs  | Best   |
| MPL    | BB-MPL110-12 | 110Ah     | 13" x 6.8" x 9.5"    | 76lbs  | Best   |

## OUTDOOR ENCLOSURES

The Solarland SLENC outdoor enclosures are designed for applications that require a sturdy, weatherproof enclosure to house electronics and batteries.

### Standard Features:

- UV Resistant Materials
- Lockable
- Gaskets Sealed Doors
- Wall or Pole Mount

### SLENC-DC-1083 Die Cast Aluminum with Powder Coat Paint

|                  |  |
|------------------|--|
| Weather proofing | Nema 4X/IP65   |
| Mounting         | Wall or Pole Mount - U-Bolts for up to 1.6" included |
| Interior Mounts  | Qty 9 x 4mm threaded standoffs                       |
| External Size    | 11" x 8.5" x 3.5" (279 x 216 x 89mm)                 |
| Internal Size    | 10" x 7.75" x 3" (254 x 197 x 76mm)                  |
| Weight           | 4lb (1.8kg)  |

#### Hardware Included

- U-Bolts and Mount Kit
- 2 x Strain Relief
- 3 x Hole Plugs
- 1 x Aluminum Backplate

### SLENC-PL-14105 Glass Filled Polycarbonate

|                  |  |
|------------------|--|
| Weather proofing | Nema 3R/IP65   |
| Mounting         | Wall or Pole Mount with Hose Clamps - Not Included   |
| Interior Mounts  | Numerous Holes for 4mm Self-Tapping Screws/Standoffs |
| External Size    | 17.5" x 12.5" x 6" (445 x 318 x 152mm)               |
| Internal Size    | 14" x 10" x 5" (356 x 254 x 127mm)                   |
| Weight           | 4lb (1.8kg)  |

#### Pole Mount

- Requires 2 x SLHC-ENC Hose Clamps for Pole Mount (Available Separately)

### SLENC-ST-231412 Powder Coated Steel

|                  |  |
|------------------|--|
| Weather proofing | Nema 4X/IP65                                       |
| Mounting         | Wall or Pole Mount with Hose Clamps - Not Included |
| Interior Mounts  | Removable Steel Backplate                          |
| External Size    | 24" x 15" x 14" (610 x 381 x 356mm)                |
| Internal Size    | 23" x 14" x 12" (584 x 356 x 305mm)                |
| Weight           | 55lb (25kg)  |

#### Pole Mount

- Requires 4 x SLHC-ENC Hose Clamps for Pole Mount (Available Separately)

*This box is supplied with various hardware and accessories for mounting items inside the enclosure*

- 4 Cut-Outs for RJ45 Feedthrus (Included)
- Removable Battery Shelf
- DIN Rail Mounts on Interior Walls and Door
