ISBN: 1259709957

Detailed List of New Features

- Dietary analysis auto-graded assignments are now within Connect! One of the challenges many instructors face with teaching nutrition classes is having the time to grade dietary analysis projects. To help overcome that challenge, auto-graded assignments that require students to use NutritionCalc Plus (NCP) and answer questions based on the generated reports have been developed. These assignments were developed and reviewed by faculty who use such assignments in their own teaching. They are designed to be relevant, current, and interesting.
- NutritionCalc Plus is a suite of powerful dietary self-assessment tools, with more than 30,000 foods from the USDA database and food manufacturers.
 - ✓ New Mobile interface
 - ✓ Sleek design update
 - ✓ Easier to run reports
 - ✓ Seamless transition from the recent NutriCalc 4.1 version (similar layout and operation within the site)
 - ✓ Includes updates to match up with the 2018 USDA MyPlate report and food label mandate
 - ✓ Ability to track up to three profiles
 - ✓ 365-day calendar function
 - ✓ Ability to track Omega-3 and Omega-6 data
- Numerous new and modern photos have been included to engage the reader.
- References have been updated for all chapters to include the most current research and evidence-based practice recommendations.
- Dietary Reference Intake tables are now included as Appendix J.
