Health Foundations, Fitness Foundations, Emergency Medical Response,
Introduction to Kinesiology

My favorite thing about Connect is...

“Autograding!”

Connect helped me improve my course by...

“Allowing me to spend more time on the topics they actually need help with instead of regurgitating the text in a boring lecture.”

My top 3 tips for using Connect:

- “Make assignments count”
- “Have some sort of “class prep” assignment that introduces the students to the material prior to lecture”
- “Use follow-up assignments.”

My best advice for a new user:

“Begin basic with the LearnSmart activities then progress to work at creating your own assignments once you are comfortable with the platform.”

What Connect could mean for you:

“Saves time with autograding options, allows you to focus your lectures, and if used as a class preparation assignment, it can allow you more time in class for activities as opposed to lecture.”
