Introduction to Sociology, Sociology of Family, and Social Problems

My favorite thing about Connect is...

“I like the SmartBook assignments. They reinforce the covered material and it allows students to earn points as they progress through a class.”

Connect helped me improve my course by...

“Connect helped me to quickly put together an online class with useful content.”

My top 3 tips for using Connect:

- “Start slow and start with SmartBook assignments.”
- “Use the At Risk report and communicate with those students who not performing well in class.”
- “Use Connect in any modality - doesn't have to be an online class.”

My best advice for a new user:

“I would advise new faculty to thoroughly familiarize themselves with the different features Connect offers while at the same time being mindful to not overburden students with an excessive amount of assignments.”

What Connect could mean for you:

“Connect gave me the ability to quickly put together an online class. It also helped me track those students who's engagement is lacking, which is very helpful in large sections.”
