Exploring Connect

Connect Training Series

Instructors
Getting Started

Visit connect.mheducation.com to sign in. Enter your email address and your password and click sign in to get started.

The first thing you'll need to do when starting with Connect is add a course.

Under “Find a Title,” you’ll search by title, author or subject.
Selecting your Text

You may narrow down the options by using subject, author, or title filters, or you may scroll through the titles as result of your search. Click on the desired title.
Name your Section

Under “Tell us about your course,” you’ll enter a course name, select your time zone, and enter registration dates.

Next, under “Name your first section,” you’ll enter a section name that is specific to each section.

In the lower right corner of the page, click Create Course.
This is your Connect course section home page. Your Connect course section defaults to the home page, but there are two additional tabs located at the top in the blue banner—Library and Performance.
The Home page is where you’ll create and view your assignments.

Along the right side of your home page is Section Info. Next to Section Info, click the gear icon to add your information.

Below the instructor information, you’ll find quick access to the SmartBook and the eBook. You may also click on Upload my Syllabus to upload a doc or PDF file.
As we continue down the page, you'll find access to additional course resources, including Tegrity which allows you to record lectures for your students to view at any time.
The second tab at the top of your Connect course is Library. The Library houses instructor resources, such as media files, PPTs, etc.
Performance Tab

The third tab at the top of your Connect course is Performance. Performance provides access to a variety of reports and course data.
