These colorful, large format, read aloud books guide young learners through their feelings, how to express them, and teach them that others have feelings, too. Each book contains three stories; each story is accompanied by “Time to Talk” and “Time to Do” prompts that stimulate conversation and engaging activities (set of 8 books).

AN EQUITABLE AND PARALLEL SPANISH READING PROGRAM

*Maravillas,* a full Spanish Language Arts program for grades K–5 in the *Wonders*® suite of resources, supports students as they become bilingual, biliterate, and bicultural. Instructional plans, themes, skills, strategies, and test preparation mirror those of the core English Language Arts *Wonders* program. With a wealth of authentic literature ranging across the Spanish-speaking world, *Maravillas* gives students equity of access to rich texts and rigorous instruction.

*Maravillas* is a perfect fit for bilingual, one-way, or two-way dual immersion classrooms. *Maravillas* provides content that leads Spanish-dominant students to become literate in their native language and English-dominant students to become literate in a second language. At the same time, *Maravillas* imparts cross-cultural appreciation with the “Nuestras Maravillas” lessons.

*Maravillas* is committed to providing learners support as they simultaneously learn content and language. The “Bridge to English” lessons connect Spanish language skills with the English language in four modalities: reading, writing, listening, and speaking. Students learn key similarities and differences in two languages and what skills are transferable and non-transferable.

**Comprehensive Program with a 6-year subscription***

SRA Open Court Reading Foundational Skills Kits and Word Analysis Kits provide classroom-proven, systematic, explicit instruction to help students learn the basics of reading and writing and progress to reading and comprehending more complex texts.

For grades K–3, the Foundational Skills Kits include fundamental elements of instruction that reading research has shown are essential for teaching students to read. As students move on to grades 4–5, they bring the foundational skills they have mastered to a new level. In these grades, students transition from learning to read to reading to learn. They also move away from foundational skills to focus on word analysis and reading more complex texts.

Reading Mastery®

ACHEIVE READING SUCCESS WITH PROVEN PROGRAM

Grades K–5

Your core replacement program solution for at-risk students in Tier 2 and Tier 3/4. Proven lesson instruction and additional tools assist with CCSS mastery by maximizing vocabulary acquisition, tracking lesson progress online, and enhancing students’ comprehension with interactive whiteboard activities. Three strands—reading, language arts, and literature—can be implemented separately or combined to provide a comprehensive reading/language arts curriculum.

• The Reading Strand addresses all five essential components of reading; helps students connect encoding and decoding; and develops comprehension skills that transfer to other subject areas.

• The Literature Strand presents a variety of literary forms and text structures that allow students to practice vocabulary and comprehension strategies as a group and independently.

• The Language Arts Strand teaches the language skills needed to understand what is written, read, and spoken while also preparing students to communicate effectively.

• Student Materials include storybooks that are more than 95% decodable; workbooks with comprehension activities; and test books to measure student progress.

• Teacher Materials include presentation books with lesson plans for reading and spelling; and a curriculum-based assessment and fluency handbook to track student skill mastery.

• Program Resources includes Online Professional Learning Courses.

• The Literature Strand includes theme-related trade books; a Read-Aloud Library of 30 books featuring quality narrative and expository text; and a Read-Aloud Teacher’s Edition that presents explicit lessons on vocabulary-building and comprehension exercises.
