INTRODUCING NETWORKS™ INQUIRY JOURNALS

PROMOTE ACTIVE LEARNING AND CRITICAL THINKING

An interactive work text to the Student Edition, the Inquiry Journal facilitates the inquiry process. With active learning, students make a deeper connection with the content and develop investigative, critical thinking, and analysis skills—building blocks for active, informed citizens.

- Provides extension activities that strengthen source analysis and evidence-based writing
- Helps students learn how to effectively access and analyze primary and secondary sources
- Offers a citizenship oriented activity for students to make connections and get immersed in taking action in their community

Available in print and online for select Networks titles.
Citizenship

Taking Action

The Constitution is based on the principle of popular sovereignty. As the text states, "Concerning the right to vote is a matter of the most important responsibility of a citizen," but U.S. citizens do not gather in the same way in federal or state legislatures. Explore this by creating an interview with the U.S. Constitution and the Constitution of the United States.

1. Write a question on a piece of paper and pose it to the Constitution (perhaps in the form of a "议案").
2. Write a question on another piece of paper and pose it to the U.S. Constitution (perhaps in the form of a "议案").
3. Write a question on a third piece of paper and pose it to the Constitution (perhaps in the form of a "议案").

TAKING ACTION

1. Write a question on a fourth piece of paper and pose it to the Constitution (perhaps in the form of a "议案").
2. Write a question on a fifth piece of paper and pose it to the Constitution (perhaps in the form of a "议案").
3. Write a question on a sixth piece of paper and pose it to the Constitution (perhaps in the form of a "议案").

The Report Your Findings section is a powerful tool to synthesize their learning as it circles back to answering the Essential Question.

Each chapter offers a citizenship oriented activity for students to make real-world connections.
SYNCBLASTS™
An inquiry-based solution for 6–12 Networks™ social studies

Powered by StudySync®, SyncBlasts™ provides reading and writing assignments called Blasts that present social studies and current event topics relevant to students’ lives and their world. Providing a variety of rich multimedia—including a news show, podcasts, and skills videos—SyncBlasts are an engaging and smart way to build critical thinking, writing, and research skills. New Blasts are published each school day at three Lexile®-levels.

Blasts challenge students to:

- Build vital research, writing, and critical-thinking skills while providing an easy entry point for peer review.
- Develop informed opinions on high-interest topics of cultural significance.
- Express their opinions succinctly, in a familiar, social media-like format.
- Participate in thoughtful discussions with an authentic audience of peers.
HOW IT WORKS

Teachers visit content channels to select and assign Blasts—short reading and writing assignments that inspire students to think critically about high interest topics. Students explore a robust platform of multimedia content to learn about the Blast topic and then complete assignments within our engaging social media-like platform.

MULTIMEDIA COMPONENTS

Preview videos
Designed like movie trailers, preview videos set the stage and provide background information for what is to come. Use these videos as an introduction to the subject and revisit for a big-picture view.

SyncSkills videos
SyncSkills videos model the rigor and drama of a lively classroom discussion in a condensed and casual format. Students learn by watching peers model specific critical-thinking, writing, and analytical skills.

Explainer videos
Short, fact-based videos focus on explaining an idea in a simple and compelling manner. Clear, concise language is paired with visuals, quickly teaching a concept prior to a deeper dive or discussion.

“The Point” news show
These videos get to the point with news and global issues. Students watch and become engaged with newscasts produced with peer-aged students.
LEARNSMART® + SMARTBOOK®

UNDERSTANDING IS THE FOUNDATION FOR ACHIEVEMENT

At McGraw-Hill, we recognize that no two students are alike, and the need for personalized solutions could not be greater. Using revolutionary adaptive technology, LearnSmart® builds a learning experience unique to each student’s individual needs.

LearnSmart with Networks™, gives students an advantage. Research proves LearnSmart improves learning outcomes by ensuring every minute a student spends studying is the most productive minute possible.

GIVE STUDENTS WHAT THEY NEED, WHEN THEY NEED IT.

- LearnSmart determines precisely which learning objectives a student has grasped and those with which he/she struggles.

- The Social Studies are made up of more than just facts and dates, LearnSmart makes social studies content accessible to students by providing personalized instruction, practice, and context necessary to build meaning. The program also suggests different ways to access content or review materials when needed, all based on the individual student’s personal performance and knowledge indicators.
Effective study time

**Smartbook®** is an adaptive ebook that utilizes **LearnSmart®** technology to guide students through reading making every minute a student studies as productive as possible.

Engage students with a personalized reading experience

Every student experiences **SmartBook** differently. The interactive challenge format highlights content and helps each student identify content they know, don’t know, and are most likely to forget.

Easy-to-use so students retain what they learned

When **LearnSmart** detects content a student is most likely to forget, the student is presented the content for review to improve knowledge retention.

Efficient reporting tools pinpoint learning gaps

Students study more efficiently because they are aware of content they know and don’t know. Instructor reports identify at-risk students and highlight concepts the class as whole struggles to master.

STREET LAW: A COURSE IN PRACTICAL LAW

Grades 9–12

The new 10th edition of the most widely-used and trusted resource for teaching law in high schools

*Street Law: A Course in Practical Law* (2021) empowers students with the legal and civic knowledge, skills, and confidence to be engaged and informed citizens while affecting positive change. This student-centered, interactive program now features a brand new chapter on environmental law that includes information on important federal legislation like the **Clean Air Act** and **Clean Water Act**. This course’s democratic pedagogy ensures the development of high-level critical thinking and problem-solving skills, engagement, and communication skills. This edition is available in both online and print formats.

This dynamic high school law program:

- **Engages** students in every unit with a new deliberation feature on contested public issues such as fracking, mandatory reporting of domestic abuse, and hate speech.
- **Explores current issues** with Supreme Court case studies, civil rights scenarios, and deliberation activities on current topics such as cyber-crime, identity theft, intellectual property rights, terrorism, immigration, marriage equality, and much more.
- **Involves** students with Taking Action: Law and Democracy, Investigating the Law Where You Live, and You be the Judge feature strands.
- **Develops analytical skills** as students consider the legal aspects of social, economic, moral, and political issues through activities such as mock trials and moot courts.

A Narrative of Social History Through Multiple Perspectives and Interpretations

The first AP adaptation of the best-selling college text now in its 9th edition, this narrative is told from multiple perspectives and highlights how diverse actors have been at the center of US history. Students are lead to a richer engagement with and a deeper understanding of how history is created. Focusing on the lives and actions of ordinary Americans helps students to understand that no event is inevitable, and that the actions of the people create historical moments. Students see themselves as stakeholders in an ongoing historical narrative, rather than passive recipients of a historical legacy that has little to do with their individual lives.

Dynamic Digital Resources

A wealth of digital AP resources include primary source analysis documents and activities, historical argumentation exercises, visual aids and videos, and customizable AP assignments and assessments. Content is organized at the chapter level.
