GETTING STARTED WITH WONDERS DIGITAL

Welcome to the Wonders digital platform. All Wonders digital components are accessible on your Teacher Dashboard through my.mheducation.com, a website that allows teachers access to all digital content, as well as access for students and parents. Lesson Plans, Presentations, Resources, Assessments, and Student Editions are just a few of the things you will find. This guide will introduce you to the Wonders platform and its most important features. You can find additional guides and support at any time through the Professional Development choice on the main teacher page.

1. Type the URL my.mheducation.com into your web browser. Enter your username and password*:
   Username: ColoradoWonders
   Password: WondersReview2019
   Then select Log in.
   *password is case sensitive

2. Scroll down through the bookbag to select the Teacher Edition for the grade level you wish to review. Grade K is at the bottom.
3. You will arrive at the Teacher Dashboard. This is your main screen for accessing lesson planning, prebuilt presentations, and all program resources. This guide shows examples from Grade 4. While the content may show differences across the grades, the navigation is the same for all grades.

4. At anytime, click on the Wonders logo to return to the Teacher Dashboard. To change the unit or week, click on Unit or Week located just below the Wonders logo.

To change grades, click on the person icon at the top right and select ConnectED from the dropdown. You will then return to the bookbag.

5. To see Weekly Standards, click on Plan in the upper left-hand corner of the teacher dashboard, and then select Weekly Standards to see all standards addressed within a specific week of instruction. Click on the link showing the number of lessons for that standard to see in which lessons within the week the standard is taught.

You can also search by standards from the search options at the top of the screen. Click the magnifying glass icon, then select Search Standards and follow the steps on the screen.

To locate the citations from the correlations document that was received with your review materials, click on the Resources drop-down menu and chose Resource Library. This will allow access to all program materials, using the list of resources or the keyword search. Some digital only components are noted as well, which can be found in the list of Resources.

PLEASE NOTE: The content on your screen may show slight differences across the grades. The navigation will not change.
