3. Ensure equity of access for all learners.

Support Language Development Skills to Meet English Language Proficiency Standards
The English Learning Dilemma

English learners face the simultaneous challenges of acquiring English language proficiency and content area knowledge – while being held to the same standards and expectations as their peers. How can educators ensure all learners full access to content?

Wonders for English Learners creates learning experiences that inspire confidence, increase student engagement, and build language skills.

This robust program includes:

- Engaging content with scaffolding and support designed specifically for English learners
- Connected curriculum that supports learning in the core classroom
- Emphasis on building speaking, listening, reading and writing skills to improve both academic and social language
- Targeted instruction for all proficiency levels
Wonders for English Learners connects with Wonders, providing fully-integrated support for English Language Development.

- **Integration**
  Content covers the same themes and topics as the core classroom, with scaffolding designed for English learners. Students encounter essential content multiple times to reinforce learning.

- **Level Up**
  Customized scaffolding and support designed specifically for English learners helps students build communication skills and accelerate them through each of the proficiency levels, whether they are beginning to learn the language or are more advanced.

- **Support**
  Flexible instruction fits a variety of implementation models, including push-in, pull-out, sheltered instruction, and self-contained classrooms. Lessons are available in 30-, 45-, and 60-minute periods.
The Power of Connection
Address the learning needs of English learners.

- Shared features and grade level content with appropriate scaffolding is designed for English learners.
- Students encounter essential content multiple times to reinforce understanding.
- English language instruction provides a pathway for students to access complex texts and prepare for state testing.

Build and Reinforce Student Knowledge.

- Differentiated instruction builds on the integrated English learner support in Wonders.
- Scaffolds provide support for English learners to access on-level text and skills.
- Prompts help students make connections to the Essential Question using academic language, vocabulary, and text evidence.
- A path for students to successfully participate in Wonders whole-group instruction is provided.
Students progress from beginning to intermediate/advanced levels and level up to the core *Wonders* text.
The top part of the Grand Canyon is the forest region. It has many tall pine trees. It rains and snows a lot here. Deer and squirrels live here.
