Foster a love of early learning

Prepare for kindergarten success with rich, cross-curricular learning experiences

Build a strong foundation for early literacy
Introducing World of Wonders

Early childhood educators play a special role in children’s lives – they guide them onto the path of lifelong learning. World of Wonders provides the support and structure children need for early reading, while building cross-curricular knowledge, establishing classroom routines, and addressing the needs of all learners through differentiated instructional pathways.

Support Kindergarten Readiness

Introduce children to instruction that builds strong foundational skills for success in kindergarten with:

- A focus on letters, oral language, knowledge-building, and listening comprehension
- Development of social-emotional skills
- Math content that is developmental and recursive
- Integration of science, social studies, and music in every unit

You’ll find the transition to kindergarten easy with consistent instructional features, routines, and support. Careful attention has been paid to the overlap of skills in late-PreK and early-K.
**Why World of Wonders?**

*World of Wonders* addresses the flexible nature of the early childhood classroom while helping teachers make the most of their instructional time.
