Skill: Multiplication facts

Materials:
- 2 to 4 dice
- 4 counters
- 1 calculator or a Multiplication/Division Facts Table (optional)

Players: 2, or 2 teams

Object of the Game: To score more runs.

How to Play:
1. Choose a hitting table.
2. Players (or teams) take turns being the pitcher and the batter.
3. The batter puts a counter on home plate. The pitcher rolls the dice.
4. The batter finds the product of the numbers, then checks the hitting table to see how far to move the counter(s) on the field.
5. The batter tallies a run whenever a counter crosses home plate.
6. Incorrect answers are strikes. Three strikes make an out. The batter tallies outs.
7. After each hit, the batter puts a counter on home plate.
8. After 3 outs, the batter and pitcher switch. The inning is over when both teams make 3 outs.
9. After 3 innings, the team with more runs wins.
