How to Play
1. Shuffle and stack the cards whole-number side down.
2. Each player takes 2 cards, makes the larger 2-digit number, and records it.
3. Take turns rolling the die to make another 2-digit number. Use the number on the die in the tens place. Use 0 in the ones place. Record the number.
4. Add. Record your sum.
5. After 4 rounds, use a calculator to add your 4 sums.
6. The player with the higher total wins.

Skill: Finding sums of 2-digit numbers and multiples of 10
Materials:
- Everything Math Deck (number cards 0–9, 4 of each)
- 1 die
- 1 calculator
