Effective study time

SmartBook is an adaptive ebook that utilizes LearnSmart technology to guide students through reading, making every minute a student studies as productive as possible.

Engage students with a personalized reading experience

Every student experiences SmartBook differently. The interactive challenge format highlights content and helps each student identify content they know, don’t know, and are most likely to forget.

Easy-to-use so students retain what they have learned

When LearnSmart detects content a student is most likely to forget, the student is presented the content to review improving knowledge retention.

Efficient reporting tools pinpoint learning gaps

Students study more efficiently because they are aware of content they know and don’t know. Instructor Reports identify at-risk students and highlight concepts the class as a whole struggles to master.
