Observing Safety Rules

Find Out
Do this activity to see what you do to stay safe.

Process Skills
Observing
Communicating

What You Need
- crayons
- pencil

Time
- 30 minutes to get started
- 10 minutes every other day for two weeks
What To Do

1. Think about some things you do to be safe.

2. Write down something you’ve done today. Draw a picture.

3. Every other day, write something you do to be safe. Then draw a picture.
<table>
<thead>
<tr>
<th>Date</th>
<th>Safety Rule</th>
<th>Picture of Safety Rule</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>

</tr>
</tbody>
</table>
Conclusions
1. **Tell** about some things you did to be safe.

2. How were they different each day?

New Questions
1. Choose a season different than the one now. Tell something you should do to be safe then.

2. Write a question you still have about being safe.
How Germs Spread

Show what happens to each piece of paper when you spray each liquid.

Water

Baby Oil
Show how each piece of paper looks when the liquids dry.

Water

Baby Oil
Putting Medicine in Its Place

What medicines did you put in your medicine cabinet?

**Draw** the medicines or **write** their names.
Who should give you medicine?

**Draw** a picture that shows your answer.
Preventing Accidents

Draw pictures of people being safe.

At School

At Home
What other place could you make safety rules for?

Draw a picture of people being safe in that place.
