**SRA Snapshots Video Science™** and the **Full Option Science System™** (FOSS) are intended for use at grades 3 through 6. In **SRA Snapshots Video Science™**, Level A is aimed at third grade, Level B is aimed at fourth grade, and Level C is aimed at fifth grade. However, the levels can be shifted up one grade or down one grade as deemed necessary.

| Structures of Life                | Level A, Chapter 1, Lesson 1: Living Things Have Needs  
|                                   | Level A, Chapter 1, Lesson 2: Grouping Living Things  
|                                   | Level A, Chapter 1, Lesson 3: Life Cycles  
|                                   | Level A, Chapter 2, Lesson 1: Organisms Interact  
|                                   | Level A, Chapter 2, Lesson 3: Organisms Compete  
|                                   | Level B, Chapter 1, Lesson 2: Many Kinds of Animals  
|                                   | Level B, Chapter 1, Lesson 3: Many Kinds of Plants  
|                                   | Level C, Chapter 3, Lesson 1: Needs of Organisms  
|                                   | Level C, Chapter 2, Lesson 2: Adaptation and Survival  
| Human Body                        | Level A, Chapter 3, Lesson 1: People Have Needs  
|                                   | Level A, Chapter 3, Lesson 2: Microorganisms and People  
|                                   | Level C, Chapter 1, Lesson 1: Tiny Cells  
|                                   | Level C, Chapter 2, Lesson 2: Types of Cells  
|                                   | Level C, Chapter 3, Lesson 3: Cell Organization  
| Magnetism and Electricity         | Level A, Chapter 9, Lesson 2: Electrical Energy  
|                                   | Level B, Chapter 9, Lesson 1: Electrical Energy  
|                                   | Level B, Chapter 9, Lesson 2: Electricity and Magnets  
|                                   | Level B, Chapter 9, Lesson 3: Electricity in Our Homes  
|                                   | Level C, Chapter 8, Lesson 1: What is Energy?  
|                                   | Level C, Chapter 8, Lesson 3: Electrical Energy  
| Physics of Sound                  | Level A, Chapter 9, Lesson 1: Light and Sound  
|                                   | Level B, Chapter 8, Lesson 1: Sounds All Around  
| Water                             | Level A, Chapter 5, Lesson 2: Water Cycle  
|                                   | Level A, Chapter 8, Lesson 2: Solids, Liquids, and Gases  
|                                   | Level A, Chapter 8, Lesson 3: Heating and Cooling Matter  
|                                   | Level B, Chapter 5, Lesson 1: Moving Water on Earth  
|                                   | Level C, Chapter 4, Lesson 2: Weathering and Erosion  
|                                   | Level C, Chapter 5, Lesson 2: Water on Earth  
| Earth Materials                   | Level A, Chapter 4, Lesson 1: Forces Shape the Land  
|                                   | Level A, Chapter 4, Lesson 2: Materials on Earth  
|                                   | Level A, Chapter 4, Lesson 3: Earth’s Resources  
|                                   | Level A, Chapter 8, Lesson 1: Properties of Matter  
|                                   | Level B, Chapter 4, Lesson 2: Changing Earth  
|                                   | Level B, Chapter 4, Lesson 3: Rocks and Minerals  
|                                   | Level C, Chapter 4, Lesson 3: Earth Materials  
| Environments                      | Level A, Chapter 2, Lesson 1: Organisms Interact  
|                                   | Level A, Chapter 2, Lesson 2: Energy in an Ecosystem  
|                                   | Level A, Chapter 2, Lesson 3: Organisms Compete
