Dr. Karen Kudija, O.D.

We are proud to introduce the latest in retinal imaging, the Optomap. It is painless, quick and will assist the doctor in looking at the health of your eyes. This instrument will enhance our ability to detect and monitor retinal defects associated with common systemic diseases such as ***hypertension, diabetes, high cholesterol, and thyroid problems***. Through this digital imaging of the retina we can observe early changes in the eye relating to ***glaucoma, cataracts, and macular degeneration***.

This technology is now our new standard of care.

There will be a nominal co-pay for this procedure of **\$35.00** or **\$20.00** for returning patients.

Please check one of the following: Decline _____

Yes, I would like this new procedure.

I want to discuss with the doctor.
