Contemporary Issues in Urologic Pathology

Date: November 13-16, 2018  
Location: Seattle, WA  
Credits: 24.0 CME Credits, 10.0 SAMs CME Credit

FACULTY LIST

Director:  
David Grignon, MD, FASCP  
Indiana University Health

Faculty:  
John N. Eble, MD, MBA, FASCP  
Indiana University Health  
Peter A. Humphrey, MD, PhD, FASCP  
Yale School of Medicine  
John R. Srigley, MD, FASCP  
University of Toronto and Trillium Health Partners

New Faculty  
Sean Williamson, MD, FASCP  
Henry Ford Health System

COURSE SCHEDULE

Tuesday, November 13
7:50–11:45 am  
Welcome, introductory remarks  
David Grignon, MD, FASCP

John N. Eble, MD, MBA, FASCP

New Topic | Kidney tumors: classification, new entities and differential diagnosis – Part II  
John N. Eble, MD, MBA, FASCP

Pediatric and mesenchymal kidney tumors  
John N. Eble, MD, MBA, FASCP

1:00 – 4:45 pm  
New Topic | Kidney: handling and reporting of renal cell carcinoma containing specimens  
David Grignon, MD, FASCP

Adrenal gland  
David Grignon, MD, FASCP

Video microscopy session: kidney  
John N. Eble, MD, MBA, FASCP

Wednesday, November 14
8:00 – 11:45 am  
New Topic | Urothelial carcinoma and histologic variants  
David Grignon, MD, FASCP

Other tumors and mimics of bladder tumors  
David Grignon, MD, FASCP

New Topic | Handling and reporting of urothelial carcinoma containing specimens  
David Grignon, MD, FASCP

1:00 – 4:30 pm  
New Topic | Penis and External Genitalia  
Sean Williamson, MD, FASCP

Video microscopy session: urinary bladder  
David Grignon, MD, FASCP

Thursday, November 15
8:00 am – 12:00 pm  
Prostatic adenocarcinoma: diagnostic criteria  
Peter A. Humphrey, MD, PhD, FASCP

Benign mimics of prostatic adenocarcinoma  
Peter A. Humphrey, MD, PhD, FASCP

New Topic | Gleason grading, handling and reporting of needle biopsy and radical prostatectomy specimens  
David Grignon, MD, FASCP

1:15 – 4:30 pm  
New Topic | Prostatic carcinoma: variants  
Peter A. Humphrey, MD, PhD, FASCP

Prostate cancer precursor lesions and mesenchymal lesions  
David Grignon, MD, FASCP

Video microscopy session: Prostate gland  
Peter A. Humphrey, MD, PhD, FASCP

Friday, November 16
7:30 – 11:15 am  
New Topic | Germ cell tumors of the testis  
John R. Srigley, MD, FASCP

New Topic | Handling and reporting of germ cell tumors  
John R. Srigley, MD, FASCP

Non-germ cell tumors and selected tumor-like lesions of the testis and para-testis  
John R. Srigley, MD, FASCP

12:15 – 2:10 pm  
Testis: infertility biopsies  
David Grignon, MD, FASCP

Video microscopy session: testis  
John R. Srigley, MD, FASCP

Closing remarks  
David Grignon, MD, FASCP
