

# DUMOL

Critical Acclaim for DuMOL's 2023 Vintage  
James Suckling, July 2025

## 2023 *Finn* Pinot Noir

98

Power and richness come with grace and balance in this top-tier wine from Dumol. So drenched in berries and dark cherries, then backed by vivid tannins and brilliant acidity on a ripe-tasting but tangy palate. Forest floor, black tea, bay leaves, cloves and cedar. Medium-bodied yet muscular and structured for potential long-term aging. Drinkable now, but best from 2030.

## 2023 *Ryan* Pinot Noir

96

Warm and rich in dark fruit flavors, with a broad texture and a full body that make this bottling easy to enjoy now. Red and black cherries, dark plums, baking spices, broad tannins and a lingering, fruity finish. Drink or hold.

## 2023 DuMOL Estate Vineyard Pinot Noir

96

A generous, gorgeous, mouth-filling red that's open and fruity in aromas and saturated with richness on the palate. Moderate tannins and good acidity buoy the raspberry, black cherry, clove, cedar and forest floor flavors. Made from very small berries from vines of the Calera and Swan clones. Drinkable now, but best from 2029.

## 2023 DuMOL Estate Vineyard Chardonnay

97

Laser-focused on citrus flavors and offering brilliant, bracing acidity that makes it feel so linear and fresh. Lemon zest, lime curd and a bit of green apple freshness, then chalky minerals and white pepper as you keep sipping. An amazingly fresh wine with a low pH more likely in a German riesling. Drinkable now, but best from 2029.

## 2023 *Chloe* Chardonnay

95

This shows nicely the richness and pure fruit flavors of the Russian River Valley, yet it's balanced by good, vibrant acidity. So plush and mouth-filling, broad and rather ripe, offering golden apples, baked pears and tempting pastry shop spices. Drink now.
