

Harper's Rest

2024 PINOT NOIR RUSSIAN RIVER VALLEY ESTATE GROWN

THE VINEYARD

Sourced from Moon Dust Vineyard in the Sebastopol Hills and Harper's Rest Vineyard in the Middle Reach, seven Pinot Noir clones bring depth and site expression, with savory notes, vibrant red fruit, and the freshness of the vintage. We practice regenerative and organic viticulture across our two estate vineyards, and are California Certified Organic Farmers (CCOF). The 2024 vintage marked the third consecutive year of ample winter rainfall. Spring arrived a bit early, with rain continuing through much of May. With abundant water and plenty of sunshine throughout the growing season, the vines were eager to grow, requiring careful shoot thinning to manage vigor and keep green, herbaceous flavors at bay. Harvest started in mid-September with healthy clusters in both vineyards.

THE WINE

The vineyard crew hand-harvested and hand-sorted (90% destemmed, 10% whole cluster) the grapes, with a four-day cold soak and ambient-yeast fermentation in open-top tanks kept below 90°F using pump-overs and punch-downs. After fermenting dry, only the free-run juice was barreled down for natural malolactic, with no chemical additions. The resulting wine displays a vibrant garnet hue extending to the rim, opening with aromas of both red and black fruit, black cardamon, red cherry, and black plum. Silky yet structured, the 2024 vintage captures the duality of Pinot Noir—delivering a dense, ripe core framed by fine-grained tannins on the finish.

APPELLATION | Sonoma County, Russian River Valley

VINEYARDS | 89% Moon Dust Vineyard (Sebastopol Hills) and
11% Harper's Rest Vineyard (Middle Reach)

SOIL | Moon Dust Vineyard is Goldridge soil over clay loam and
Harper's Rest Vineyard is Sobrante Silt Loam
