

LITHOLOGY

2022 · ESTATE VINEYARD · NAPA VALLEY · SAUVIGNON BLANC

Grown on the gentle slopes of the Lithology Estate at the base of Howell Mountain, our Sauvignon Blanc thrives in the mineral-rich volcanic soil. The vineyard, which resembles a small valley surrounded by creeks, provides a unique microclimate that allows the fruit to mature slowly, producing an elegant and refreshing wine with varying levels of depth. Aged in barrels for roundness and mouthfeel, the wine is estate bottled with an extremely limited production.

A small-lot expression of place, precision, and patience, the 2022 Sauvignon Blanc reflects the bright acidity from the growing season and is capable of aging beautifully.

REVIEWS COMING SOON

Great wines speak for themselves. As we await critic reviews, we invite you to discover the craftsmanship, terroir, and dedication behind every bottle of our 2022 Napa Valley Sauvignon Blanc.
