# The Definition of Style

There is no truer form of self expression than one's sense of style. With over eight million possibilities, the "As You Like It" custom upholstery program allows for the elevation of furniture from a mass produced commodity to an individual work of art.

## A Truly Bespoke Product

By following our road map, a custom piece of upholstery can be created in a matter of minutes; and the impression of custom-tailored furniture can last a lifetime.

## Customization Through Craftsmanship

Before any design or customization happens, there needs to be an understanding of the multi-generational knowledge that goes into every piece of upholstery.

The employee-led mission of EJ Victor is to create a satisfied customer experience through the creation of exceptional quality. This commitment to quality is transferred from our craftsmanship to your home.
