Dragon Crowd.

ROAD TRIP

Inspired by nature, hiking, music festivals and traveling... road trip is the new school flower child. Plaid and crochet dresses, post processed plaids and woven tops show a road tested and approved look. Printed bottoms with blousy layering tank sets the scene for the perfect free spirit!

STREET SPORT

Street fashion and athleisure styling, Street Sport is all about fashion by convenience. Cross-functional tops, fashion sports bras, and bottoms make way for the same outfit all day from gym to street. Using layers and prints, interesting cut lines, and color blocking... Street Sport is the dynamic duo in one!

LOUNGE CLUB

Indicative of Zen, relaxation, and the desire to slow down and be cozy... lounge club is your poolside, Sunday fun day outfit. These fits are generally loose, soft feel knit fabrics and have a subtle styling... this is all about fabrics!

DRAGON CROWD

We **innovate** to **inspire** buyers and designers to be able to **build** the products that are **right** for their customers.

The Company

Dragon Crowd Garment is a global manufacturer of knit and woven apparel that specializes in design, development, sourcing and production of all your apparel needs.

Dragon Crowd does not just make clothes for retailers to sell. It actually turns the old manufacturer-to-store-floor model on its head.

Instead of waiting for customer orders, Dragon Crowd—using its own textile mills, Asia-based factories and in-house design team—brings finished products to retailers.

Now Dragon Crowd is bringing products, concepts, ideas and really putting together a vision of what's happening in the market today. Interpreting what our team see's coming down the pike for the future. In this company we like to say it's...

"Innovation For Inspiration"
