BIO

PROFILE

I am a highly energized and extremely focused leader, that thrives in fast paced environments. I am a very active and social person that enjoys building relationships. A person who is grateful for every connection made. I just love speaking with others and hearing their story. I walk through life with a high level of integrity, loyalty and passionate about everything I do.

I have a "can do" attitude and look for an opportunity in every challenge. I enjoy coaching and mentoring others. Today, while searching for my next career, I am enjoying life and learning new things each day. My faith is strong, and my family is my greatest joy.

WORK EXPERIENCE

Jockey International, Inc. | Jockey Being Family **1995-2020**

My heart is filled with gratitude for all the opportunities that I was given during my tenure at Jockey with Jockey Being Family. I was mentored by an amazing Executive that gave me the freedom to be a creative and innovative thinker. The opportunity to make change and trusted me to build strong relationships along the way. I was blessed to be able to serve the underserved. Watch adoptive and foster families transform and become stronger. I was proud to be able to speak on Capitol and be the voice for our children and families working with the child welfare system. The grace and kindness that was shown to me as I crossed the country advocating for the cause, asking for dollars, or participating in an event over the years is immeasurable.

Thank you for welcoming me, encouraging me, and trusting me, and I am grateful that I leave Jockey Being Family a better person because of all the support and opportunities that were given to me. Jockey Being Family and Jockey were truly my family!
