

URBAN RAIL CONSULTING & STRATEGY INC.

Innes Muir
Principal Associate

Bringing my extensive contracting and consultancy business background to Urban Rail and this coupled to my significant major programme management expertise allows me to offer our clients an unrivalled understanding of the difficulties in delivering diverse scopes of infrastructure works in challenging environments where significant risk lies.

I'm commercially driven, culturally sensitive and inclusive by nature and always believe in positive communication. I have excellent collaborative working skills, using my strong common-sense approach to simplify complexity, ensuring I choose the best solutions while building strong transparent relationships with Stakeholders of all levels.

Born in the UK, Innes is an influential and accomplished Infrastructure Programme Director, working for Blue Chip organisations at the forefront of major programme delivery across both the private and public sectors. Offering thirty-five years of Infrastructure experience, with the last twenty-five years spent in Railway Construction, Rail Systems (Power, Signalling, Comms), Rolling Stock Integration, Highways, Airports and Utilities (Water and Gas) as both a Client and Contractor/Consultant in senior leadership roles.
