Subscription Price List

Please mail all inquiries and orders with payment to the business office:

[Journal Name]
PO Box 7065

Lawrence KS 66044-7065

TO PLACE AN ORDER

- All checks must be made **payable to the journal**.
- Do not send one (1) payment to cover multiple subscription titles.
- We only accept checks that are in US dollars and drawn upon a United States bank.
- We currently accept Discover, MasterCard or Visa credit card payments.
- We do not accept American Express.
- For security purposes we do not accept credit card information by email.
- We do not send invoices or receipts to Agencies.
- We do not accept orders for individual memberships/subscriptions through Agencies.
- Include end-user information (for our use only).
- Properly identify order type, i.e.: back issue(s), special publication(s), subscription.

Additional instruction concerning payments

- **Payment is required in advance.**
- Subscriptions are **Non-transferable** and **Non-refundable**.
- All subscriptions include surface mail except where otherwise noted.

Definition of subscription terms

- **Calendar Year** Subscription starts in January and ends in December. Orders received after the Calendar Year subscription period begins will be back-started.
- **Anytime Start** Subscriptions start with the first available issue.

CLAIM POLICY

A “claim” is hereby defined as a written request by a subscriber of a publication due to damage, faulty copy or non-receipt.

1. All claims **must** be submitted via **mail, fax or email**.
2. All claims **must** be received within two months of the journal mail date for United States addresses and four months for non-United States addresses.
3. If claim is approved, **replacement issue(s) will only be provided once**. After initial replacement, the issue must be purchased.
4. The quantity of issues per volume that may be claimed is determined by the quantity of issues per subscription term.
 - a. If there are 1–3 issues in the subscription term, the maximum that can be claimed is **1**.
 - b. If there are 4–7 issues in the subscription term, the maximum that can be claimed is **2**.
 - c. If there are 8–12 issues in the subscription term, the maximum that can be claimed is **3**.

According to the most recent ranking of impact factors (from June 2010) in Journal Citation Reports, the *American Journal on Intellectual and Developmental Disabilities* (formerly the *American Journal on Mental Retardation*) is ranked No. 2 in "Special Education" and No. 2 in "Rehabilitation." The premier journal in its field for more than 115 years, *AJIDD* publishes expert contributions on the treatment and prevention of intellectual disabilities. The Journal is an essential reference for researchers in the biological and health sciences, and a crucial addition to human services libraries.

The aim of *Evansia* is to provide a vehicle for the presentation and exchange of useful information on North American bryophytes and lichens. Articles are frequently popular in nature rather than technical and are intended to teach and inform both amateurs and professionals. The articles include, but are not restricted to, announcements of and reports on forays and meetings, presentations of techniques and aids for studying and curating lichens, bryophytes, and hepatics; and reports on local floras. Occasionally, articles of broad interest from locations other than North America may be included.

The *Journal of Graduate Medical Education* disseminates scholarship and promotes critical inquiry to inform and engage the graduate medical education community to improve the quality of graduate medical education. It is a peer-reviewed, editorially independent journal published by the Accreditation Council for Graduate Medical Education. The journal was created to improve the quality of graduate medical education during a time of great change. *JGME* has 2 goals: (1) to provide a venue for educators and researchers to publish valuable research and innovation about residency and fellowship education and (2) to improve the quality of research available to inform graduate medical education training decisions. Articles about any aspect of resident and fellow training are appropriate for *JGME*. Single or multispecialty reports, and single- or multi-institutional reports are encouraged; single-specialty studies should be of interest and potentially applicable to other specialties.

The *Journal of Coastal Research* provides an international forum for the littoral sciences. This professional, peer-reviewed journal is dedicated to all aspects of integrated coastal research. The Journal disseminates knowledge and understanding of coastal areas by promoting communication among specialists in geology, biology, geography, climate, littoral oceanography, hydrography, engineering, and remote sensing. The Journal contains scholarly papers, review articles, book reviews, and editorials, and also provides additional special issues on specific topics.

www.journalofforensiceconomics.com

The *Journal of Forensic Economics* (JFE) is an academic refereed journal. Articles have content within forensic economics, the scientific discipline that applies economic theories and methods to the issue of pecuniary damages as specified by case law and legislative codes. The JFE is a publication of the National Association of Forensic Economics. Topics within the JFE include (1) the analysis of claims involving persons, workers, firms, or markets for evidence concerning damage liability; (2) the calculation of damages in personal and commercial litigation; and (3) the development and use of generally accepted forensic economic methodologies and principles. Subscribers to the JFE include economists, attorneys, accountants, vocational specialists, and university libraries.

www.rjournal.org

Radiation Research publishes articles dealing with radiation effects and related subjects in the areas of physics, chemistry, biology, and medicine, including epidemiology and translational research. The term radiation is used in its broadest sense and includes specifically ionizing and ultraviolet, visible and infrared light as well as microwaves, ultrasound, and heat. Related subjects include (but are not limited to) studies with chemical agents contributing to the understanding of the effects of radiation, isotope techniques, and dosimetry methods and instrumentation.

Tire Science and Technology

Phone: (785) 865-9403

Fax: (785) 843-6153

Email: tst@allenpress.comtiresciencetechnology.org

Tire Science and Technology is a peer-reviewed, scholarly journal that addresses the development and application of experimental, analytical, and computational science. It is published quarterly by the Tire Society, Inc., an Ohio not-for-profit corporation. Their objective is "to increase and disseminate knowledge of the science and technology of tires". Topics of interest to journal readers include, but are not limited to: adhesion, aerospace, aging, agriculture, automotive, composite materials, constitutive modeling, contact mechanics, cord mechanics, curing, design theories, durability, elastomers, finite element analysis, force and moment behavior, groove wander, heat build up, hydroplaning, impact, manufacturing, mechanics, military, noise, pavement, performance evaluation, racing, rolling resistance, snow and ice, soil, standing waves, stiffness, strength, traction, vehicle dynamics, vibration, wear. *Tire Science and Technology* is the world's leading technical journal dedicated to tires. The Editor publishes original contributions that address the development and application of experimental, analytical, or computational science in which the tire figures prominently. Review papers may also be published. The journal aims to assure its readers authoritative, critically reviewed articles and the authors accessibility of their work in the permanent literature.
