DUODENOSCOPE INFECTIONS

Infection Transmission in Gastrointestinal Endoscopy

145A - Convention Center

Session Number: 2235

10:00am - 11:30am

Sun, Jun 03

Room: 145A

Venue: Convention Center

Type: Clinical Symposium

Moderators: David R. Lichtenstein, V. Raman Muthusamy

Notes: AGA Council Imaging, Endoscopy & Advanced Technology Section

Learning Objectives: Describe the proposed mechanisms and causative organisms of infection transmission during GI endoscopy, Define how infection outbreaks are manifested in an endoscopy unit, State legal risks of infection transmission in GI endoscopy and how to mitigate these; Discuss recommendations from the multisociety guideline on reprocessing of flexible endoscopes
