Program Objectives:

1. Enhance clinical excellence through in-depth learning opportunities in clinical decision-making skills.
2. Incorporate evidence-based practice research for clinical management of patients in primary healthcare settings.
3. Identify appropriate pharmacologic agents for the management of primary healthcare needs of patients.

Americans with Disabilities Act Statement

Special arrangements can be made for participants with special needs identified under the Americans with Disabilities Act. Please call Ben Hayden at (318) 372-9695 for assistance.
