# Emerging Therapies for PBC, NASH, ESLD and HCC

An Evidence-Based Seminar Focused on Chronic Liver Diseases

## Overview

This seminar series will provide updates on the latest clinical research but with a strong focus on patient care. Teams of local hepatology experts, physicians and advanced practice providers, will offer an interdisciplinary approach to diagnosis and treatment in a classroom setting that stresses strong interaction between participants and faculty. Further, the interdisciplinary faculty promotes how optimal patient outcomes can be achieved through a team approach.

To lower the barriers to participation and increase access, the program will be offered on Saturdays at ten cities throughout the country beginning in February 2018. See the calendar of programs.

The seminar will concentrate on key diseases of the liver and address the latest diagnosis, treatment and care management approaches for each.

Local experts in clinical and research medicine will be teaching in each location.

## Program Highlights

The conference will focus on the challenges of: Diagnosis of chronic liver disease; current and emerging drug therapies; side effect management and transferring new knowledge to improve patient outcomes.

- > New content based on the latest clinical guidelines and outcomes trials developed by national experts
- > Strong patient-focused educational sessions using evidence-based studies from the latest AASLD, EASL and DDW programs
- > Interactive format that includes practical patient case review, small group discussion and the use of Audience Response technology to gauge opinion and build consensus
- > Convenient local venues and affordable registration fees
- > Teams of local experts, comprised of physicians and advanced practice providers offering an interdisciplinary team approach to treatment

## Who Should Attend?

This program is especially suited for Hepatologists, Gastroenterologists, Internists, and Family Physicians as well as Physician Assistants, Nurse Practitioners, Clinical Pharmacists, Nurse Specialists, or any providers who are primarily tasked with caring for patients with chronic liver disease, both in the hospital and outpatient settings.

## Joint Provider Statement

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the University of Louisville and the SC Liver Research Consortium. The University of Louisville is accredited by the ACCME to provide continuing education for physicians.

## Designation Statement

**Physicians (MD/DO)** - The University of Louisville Office of Continuing Medical Education & Professional Development designates this live activity for a maximum of **6.0 AMA PRA Category 1 Credit(s)<sup>TM</sup>**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
