FREE CME

After registering, you will receive a confirmation email containing information about joining the webinar.

Back to school is a great time to focus your attention on childhood immunization.

Flu vaccine is available to prevent a disease that claims young lives every year. The recent measles outbreak in Oregon and Washington focused public attention on the MMR vaccine for the first time in many years.

In this webinar we will focus our attention on strategies that encourage parents to vaccinate their children to build immunity against vaccine-preventable disease.

For more information contact Melissa Thoemke, P-TCPi Unit Manager Melissa.Thoemke@doh.wa.gov.

For webinar support contact Zoey Hogan at zoey.hogan@doh.wa.gov or 360-236-3793.
