# Diabetes 2018: My, How Things Have Changed

Friday, November 9, 2018

Trader Duke's Hotel, South Burlington, VT

This conference is designed to equip primary care clinicians and other professionals with updated knowledge on issues related to outpatient management of patients with diabetes. Specific topics to be addressed at this year's conference include the relevance of renal surveillance, cardiovascular implications, new technologies, using a team-based approach for treating your patients and more.

## Topics Include:

- Implications of Recent Diabetes Cardiovascular Outcome Trials
- New Technologies in Diabetes Management
- Changing Paradigms in Care
- Insulins: The Old and the New

Guest speakers include Drs. Richard Pratley (Florida Hospital Diabetes Institute), George Grunberger (Grunberger Institute), and David Kendall, as well as prominent UVM faculty.
